

Business Name	Municipality	Number of Employees (June, 2020)	Industry Sector	In a few sentences, describe your business and how it generates revenue.	In a few sentences, describe the hardship caused to your business due to the COVID-19 virus.	\$ Received
001. Ron Lee Von	Garden City	6	Restaurant/Bar	We are a local tavern that serves food and alcohol beverages	we closed our business for 3 months, and since reopening we have had to reduce capacity and close early.	\$ 10,000.00
003. EVCO	Evans	1	Service Provider	It is a legal services business providing investigation and process serve services to the legal companies, businesses and general public.	Currently 2020 revenues are down over \$58,000.00 and net incomes are down over \$28,000.00.	\$ 10,000.00
004. Kelly J Martindale	Frederick	1	Newspaper Publication	I sell advertising that pays for the printing and distribution of my newspaper and resource directories.	My advertising clients are restaurants, medical offices, gyms, etc. and because they have been out of business or low business they cannot afford to advertise. I have lost 66% of my sales due to COVID-19.	\$ 5,339.91
005. Caring Hands Pharmacy	Fort Lupton	18	Retail	Dale's Pharmacy has been an integral part of Fort Lupton. We are a retail pharmacy and generate our revenue through prescription and merchandise sales.	Financially, our worst year ever. The business has shifted to multiple ways of serving and communication with customers; curbside, deliveries, text etc. This lead to a substantial increase in training and ongoing labor cost. Drug shortages lead to higher cost of goods. We were going strong till March. we have suffered substantial loss in revenue since March. We've spent much on PPE. We've had to remodel to mitigate risk.	\$ 15,000.00
006. Drench in Beauty	Windsor	1	Hair/Nails	I am an esthetician, I provide skin care services and products.	I was forced to close my business for months and have not regained clientele since the shut down. I rented a space for months without clients; so I have moved my business home currently while hoping to restructure pricing to entice clients.	\$ 1,800.00
007. Latitude Software Services	Erie	10	Service Provider	We provide custom technology solutions (apps and websites) for large companies who are marketing to consumers. Companies like Ford and Lincoln. They use our technology at events like auto shows and sporting events.	With events where people gather all cancelled, our revenue dried up immediately. We had to lose some staff and pivot to try to keep going in different ways.	\$ 10,000.00
008. Briggs Advanced Services	Peirce	1	Service Provider	We provide business consulting and equipment rental to many industries. We charge a fee for our service.	All of our clients cut back or closed during this pandemic. This has caused a severe burden on the finances of the company.	\$ 10,000.00
009. YJ Greeley Hospitality	Greeley	5	Hotel (49 or fewer rooms)	It's a motel business.	We are experiencing extreme revenue loss due to the pandemic. Our average occupancy rate is now 35%. In February 2020, it was 90%.	\$ 10,000.00
010. Brix Brewery	Greeley	6	Restaurant/Bar	Brewery and taproom that serves locals and visitors locally brewed beer and food in a quiet atmosphere. We also distribute to several locations as well.	Closed for two months and now limit occupancy to 50%. Sales are down for the year almost \$100,000.	\$ 10,000.00
011. RM Fitness	Erie	4	Gym	We offer Gym Membership Access to our facility, personal training, smoothies, & drinks.	Our business is in year one of operation & the minute Covid restrictions hit it DESTROYED all momentum we had built. Members cancelled, froze, & simply consumers are now hiding in fear with restrictions put in place within Boulder County. Erie is split between Boulder & Weld so many consumers have the mindset of Boulder county unfortunately.	\$ 10,000.00
012. Longs Peak Audiology	Fort Lupton	2	Healthcare	We provide hearing aid examination and services for hearing impaired individuals. Our business generates revenue by the sale of hearing aids and hearing protection. We have seven locations throughout Colorado, three of which reside in Weld County.	Due to our office being closed we lost many opportunities to sell hearing aids in many office locations. Our primary patient population is over 65 years old and has been recommend by CDC and state official to stay at home and reduced appointments. This has impacted my business greatly because these individuals are not making appointments that they have in the past. Comparing March-August 2019 to the same time frame in 2020, my sales are half of what they were last year.	\$ 10,000.00
013. The Playground	Greeley	8	Entertainment	The Playground is a 16,000 sq ft indoor playground for children 1-11 years old filled with fun and educational equipment. The Playground promotes physical activity, social, motor and cognitive skills, mental health for children and family time. Families can spend hours of quality time inside The Playground and take advantage of all day admissions and children can also celebrate birthday parties in one of our 3 party rooms. The Playground generates revenue by selling admissions for children that include unlimited re-entries throughout the day. The Playground also offers affordable party packages to celebrate birthdays or any special event. The Playground is only able to generate revenue by operating at full capacity and selling those admissions monthly. Another revenue stream is birthday party packages, where we are able to celebrate 3 parties every 3 hrs.	The Playground was deeply affected when due to COVID19 our facility had to close in March. After the ban was lifted, The Playground was able to re-open but unfortunately had to close within a month due to limited capacity guidelines, lack of resources, unable to keep up financially with PPE for staff and employees expenses, cleaning and disinfecting services, adaptation to keep up with guidelines and payroll for our staff. The contribution of limited capacity and concern in the community of the virus was what deeply affected our small business. After the re-opening we were not able to generate revenue plus we were behind with rent and utilities and had to reimburse customers for services that were not delivered during quarantine and customers were no longer interested in receiving. We made the decision to close The Playground on July 22 and we have no idea when we will be able to reopen.	\$ 10,000.00
014. Blush Boutique	Greeley	4	Retail	We are a small brick and mortar retail shop in downtown Greeley. We sell clothing, accessories, home goods and baby items. We do primarily 90% of our sales in person through our Brick and Mortar. We do have an online shop but it does not generate a lot of revenue.	We had to close our doors for several weeks. We lost employees and sales. Our revenue significantly decreased. Because of closing, we almost had to close our doors permanently. Even with being back open, our revenues are significantly down from last year. The documentation I have presented is based on our accounting from March 1st, 2020 to July 31, 2020.	\$ 10,000.00
015. Excol	Greeley	5	Service Provider	This is a tax preparation and bookkeeping office	My clients are mainly small business and subcontractor which were downsized or laid off due to Covid-19; additionally, there was the lockdown enforcement which diminished the walk-in clientele	\$ 10,000.00
016. Sarah J Wooten, DVM	Greeley	1	Healthcare	I generate revenue through speaking fees, writing fees, and product sales.	Most of the conferences I was scheduled to speak at in 2020 were canceled.	\$ 1,275.14
017. Sun Mountain Automotive	Erie	2	Auto Repair/Maintenance	General Auto Repair. In Frederick since February of 2014. We install parts so we generate sales tax revenue.	I was diagnosed with Covid on Aug 16th and we had to close down for the quarantine period. I was hospitalized for 1 week with the illness, we have re-opened but are very slow as of Sept 2.	\$ 10,000.00

018. Mickaily Enterprises	Garden City	6	Auto Repair/Maintenance	We are a collision repair facility. We perform damage repairs to automobiles.	With the potential health risks reported in March, we shut down for 3 weeks beginning March 20, 2020 to protect our employees and families from COVID-19, and made a decision to pay our employees out of our pocket while being shut down to help them with their bills and mortgage, etc... During this time Governor Polis mandated the stay at home order, which in effect made approximately 85% of the vehicles on the road stay home, causing a catastrophic impact to our industry. Since March we have lost nearly \$100,000 and don't see any real significant change in the short term economy to change the course.	\$ 10,000.00
019. E&J Company	Johnstown	1	Auto Repair/Maintenance	E&J Company provides mobile truck wash and hot shot services.	Slow down due to the COVID shut down and limited services. Therefore customers have limited and stopped our service	\$ 10,000.00
020. Echo Brewing Cask & Barrel	Erie	4	Restaurant/Bar	We are a pizzeria and brewery.	Due to COVID and the stay at home orders, we had to move to a "to-go" only model for several weeks, which reduced our revenue significantly. Even under the safer at home model, we are losing revenue during what are our typically busy months that carry us through the winter months, as capacity is limited to 50%. Food costs have increased and we have had to spend money we never did before on disposable products for to-go orders.	\$ 10,000.00
021. 4 HIM	Longmont	10	Restaurant/Bar	We sell food as a fast casual restaurant	Lost revenue due to people not eating out.	\$ 10,000.00
023. Milo Inc.	Greeley	25	Restaurant/Bar	We have a total of three restaurants. One in Greeley, one in Windsor and the third is in Thornton, CO. All these restaurants are under one company "Milo Inc". We generate revenue by sales, customer who come to eat at our restaurants.	We had to close our dining room service from 3-16-20 to 6-1-20. We only did carry out service during that time frame. We are not known for carry out service. We are dine-in. We do not offer delivery service.	\$ 20,000.00
024. Patrick's LLC	Greeley	5	Restaurant/Bar	We focus on artisan brewers, distillers, and making quality cocktails. Prior to the shutdown we ran a weekly open mic, a monthly drag show with lgbtq+ support in the community, and a weekly traditional irish session. So we are a place to socialize, find local musical entertainment and enjoy intentional drinks.	We were fortunate to get in on the first round of the ppp loans and we tried to use that to keep our staff in hours offering products for go and for delivery. The shutdown caused us to close for a few weeks and sadly we had to furlough our staff. In that period we rebuilt our interior to create physically separate seating areas as well as a commercial kitchen to convert to being a restaurant as well as expanding our liquor license area to create an outside seating area. Since re-opening we have added an extra staffing position due to the needs of the food prep and sanitation standards we employ. But we struggle because most people know us as a pub rather than a restaurant. We've also found that people have been dissuaded by the level of safety precautions we have taken to ensure a safe place for patrons AND our staff as we were not allowing people to sit at the bar, enter if their temperature was over 100.4 or without a mask since even before it was mandated.	\$ 10,000.00
025. Academy of Natural Therapy	Greeley	13	Spa	We are a business that has 3 main sources of income. The first and foremost is our accredited 31 year old Massage therapy School. The 2nd is our professional clinic were we hold massage therapy sessions and sell some merchandise. And the third way is through our off site chair massage events.	COVID hit us very hard because during the lock down we had to shut down our large working therapy professional clinic (\$26,000 revenue a month) and our chair events (\$3,000 in revenue a month). We had to lay off 12 people. These areas usually support and balance our massage therapy school. We were able to keep our massage school going. Thankfully online. However, there were a lot of costs getting computers and equipment set up for that. We still have things we need to do, to be fully prepared. When we opened back up, we have had increased costs meeting all of the sanitation standards. For example, we spray alcohol cleaner after every massage. We have gone through almost 35 gallons of that since opening. We had record low enrollments since March. Last year: 25 students and this year only 14 students. This will create a terrible financial wave effect in the future months. Our clinic could only open 1/2 way so there is less business coming in to pay the same amount of bills.	\$ 15,000.00
026. Hog Wild BBQ	Greeley	1	Restaurant/Bar	Hog Wild is a full service restaurant and bar operation. Revenues are generated from sales of food and drink.	Hog Wild signed a lease for the Greeley space in October, 2019. We renovated the interior and had a "soft" opening in February, 2020. Covid required that we close in March, 2020. For the period March, 1 to the present we have been making rent, utilities and similar payments. We plan to reopen 10/1/2020.	\$ 9,528.97
027. Cardiac Investments LLC	Greeley	2	Entertainment	We operate an Events Center in Greeley, Colorado. We rent the space to individuals for parties and corporate events.	Due to state mandates we had to cancel all scheduled events from March forward. We had approximately 10 events cancel since March.	\$ 8,822.63
028. Sanabria Enterprise Inc.	Erie	6	Restaurant/Bar	Abo's Pizza is a pizza restaurant that has dine in/take out/delivery service.	Due to the COVID-19 public health emergency, our business suffered greatly due to no foot traffic entering our restaurants, no dine in and general concern over the implications of the virus. Customers mistrust of the unknown, lead to fewer orders being placed.	\$ 10,000.00

029. Scissors & Clippers Inc.	Erie	10	Retail	<p>We are a fabric & sewing machine retailer. We carry approx. 4000 different fabrics for people to choose from when they are sewing quilts, masks, bags etc. We are a specialized retailer for Brother sewing machines. We offer classes for those just beginning to sew or for the experienced sewers as well.</p>	<p>A Quilter's Corner, like many other small businesses, has experienced unprecedented hardship because of the COVID-19 pandemic. From March 2020 until the beginning of May, the store was closed for customers. However, our sales were literally cut by 48% and our transactions were also reduced significantly. A Quilter's Corner has always thrived on our sale of sewing machines and being a central hub for quilter's all over the country. Because of COVID our community has suffered.</p> <p>The significant drop in sales has forced us to cut expenses significantly. I have made several sacrifices for the sake of my store. We have lost half of our employees. We are not able to offer the same amount of hours due our existing employees due to reduced business. I have not received a paycheck since mid-March 2020. I have made this decision in order to support the business and do everything I can to keep it afloat during this difficult and unsure time.</p>	\$ 10,000.00
031. One Way Project Management	Greeley	8	Construction	<p>One Way Project Management renovates and improves housing for landlords, tenants and general customers, particularly for properties in between tenant turnovers. Typical jobs range from full scale remodels, down to small touch up or carpentry jobs. We take pride in improving the housing in Weld County, and hope to serve our community in the future.</p>	<p>Property owners, tenants, and general customers were reluctant; and in some cases refused to allow One Way Project Management and its employees to enter their home/property for bidding jobs. This created a lack of general workflow, and for a period of time, significantly reduced the amount of ongoing jobs for the company. It continues to influence potential customers in their reduced spending. Despite having a reduced work load, One Way Project Management did not at any point reduce staff wages of staff count, or perform any layoffs. One Way Project Management values their employees, and will at any cost, do what it takes to accommodate them.</p>	\$ 10,000.00
032. Hobbs and Wolf	Windsor	3	Spa	<p>We are a medical spa owned by two physician assistants. We generate revenue by performing various personal services such as injectables (botox, cosmetic filler), performing laser treatments for hair/scar/pigment reduction, chemical peel application and microneedling. In addition we have an esthetician who performs waxing, dermaplaning and facials. We also are a reseller for a skin care product line.</p>	<p>Due to the personal nature of our business, our services can only be performed in person and therefore we were required to close from March to May. We were unable to generate any revenue other than one client who purchased skin care products by phone on one occasion. Without any income, we were required to supply additional personal funding to remain open and we have gone without personal income as well. We have delayed using our marketing dollars which hurts our social media presence, and have now been marketing our services at a reduced rate in order to entice clients to come in. Many are still afraid to come back in who were seen prior to COVID-19 closure which continues to result in additional revenue loss.</p>	\$ 6,262.00
033. Bentley Welding	Greeley	50	Manufacturer	<p>Bentley Welding Inc. provides energy support services here in Weld County to major national/regional energy players including Anadarko, Extraction Oil & Gas, EOG Resources, Noble Energy, Bonanza Creek, Crestone Creek, among others.</p> <p>Weld County revenue generating business lines include: roustabout services, mobile/field welding, in-house fabrication, in-house vessel painting, vessel (separator) repair work.</p> <p>Customer base mainly in the energy sector however we do customer welding projects for all sectors.</p>	<p>The Covid19 virus has brought the majority of business sectors in Weld County to its knees because of the related health concerns it poses and resulting economic slowdown it causes. Specific to BWI, our March - August 15 year on year revenue base has fallen from \$8.8M to \$2.6M with no advance warning. We have managed to do more with less gross margin \$\$ however we have had a hard time fulfilling our fixed costs such as rent, service obligations, transportation and machinery equipment monthly installment payments, and general and administrative salaries, etc. We were fortunate to receive a PPP Loan of \$976K which enabled BWI to maintain the majority of its variable manufacturing staff and assist with the payments of some leased manufacturing space. Those funds which we received mid April ran out in the beginning of August.</p>	\$ 25,000.00
034. Tio Juan's	Platteville	3	Restaurant/Bar	<p>My business is a small Mexican family restaurant. To generate revenue, we created new entrees and menus in order to have a variety of entrees for customers to order food from. We sell our food entrees, which include main platter, dessert, soft drinks, and alcoholic drinks to a customer. Our revenue also depends on ensuring good customer service in order for customers to tip high and will willingly come back to order more food from us. We generate the revenue from our food sales and tips in order to buy our large supply of products and to pay our employees.</p>	<p>The hardships caused to my business due to COVID-19 virus is that we have had to close down dine-in service which accounted for the majority of our food sales and tips for the employees. Our sales were reduced significantly by more than 50%, and we have been struggling to pay our employees. We have had to cut all their shifts by half. This has made it extremely difficult for my business and few employees because of the demand for work from customers and the low sales and tips we are generating during this hard time. We have had to impose a more expensive interment service in order to prevent cutting signals with customers who live outside of Platteville. We have also had to impose a method of free delivery to customers, in order for them to call us and order our food to help with our sales and payroll. We have had to put a lot of money on gas for the delivery orders we get in the town and outside the town. We have had to spend extra money in creating a new menu to serve new entrees for variety in our food, in order for customers to find the right platter and pay for it. We are also working on an online menu that will allow customers who are not comfortable dining in, to order food from however, this menu is very expensive to put up on the internet.</p>	\$ 5,141.14

035. Brighter Cleaners	Erie	1	Dry Cleaner	Brighter Cleaners business is a dry cleaner that offer cleaning services for clothing, outerwear, and household items that otherwise cannot be washed at home. I operate my shop in commercial space that I rent in a suburban shopping center of Erie. The shop's income is derived entirely from the sale of garments being dry cleaned. The Dry Cleaners is closed on Sundays and all major holidays. Brighter Cleaners business spends most of its gross income on supplies, rent, payroll, and utilities. Since the pandemic there has been a significant drop of revenue of more than 75% of sales due to the unneeded of dry cleaning. Even though, I won't have to spend much money on raw ingredients, like supplies and maintenance. However, some of the expenses will continue during this covid19 period. These include rent, utilities, and payroll. Total expense that still incurring per month are about \$7000, even though it isn't generating any revenue. When once the cleaners goes back in business it will need to generate profit for several months to make up for the lost income. Because of the covid19 pandemic, the cleaners has suffered a business income loss of \$15,000 per month compare to last year income.	As you know, many states including Colorado required business to close on an indefinitely basis, with some exceptions for essential services. I am seeing a significant impact due to government mandates resulting in reduced need for dry cleaning services. It is not known how long these partial or full shutdowns may last, these changes had already signification impacted my revenue	\$ 10,000.00
036. Toast	Windsor	3	Restaurant/Bar	Toast Coffee & Wine Bar serves coffee drinks, wine, beer, food, and other non-alcoholic beverages.	Like many businesses impacted by COVID, Toast had to shut down on March 17th. We were able to stay open for to-go food and drinks, but our menu doesn't lend well to to-go food, so we weren't as successful with to-go as we would have like to have been. We had to cut down on staff and hours significantly. Since we have been able to re-open, we are at a reduced capacity. We are very small and can not accommodate very many people at once with the new restrictions. In addition, we don't have a permanent outdoor seating area that is comfortable. The town has granted us temporary seating outside our storefront, but we don't have shade and with the hot summer the outdoor space has been mostly unused. We have seen a significant decrease in patronage and revenue that has not begun to return to pre-covid numbers. As owners, we are having to invest additional money each month to make payroll and rent.	\$ 10,000.00
037. Thomas/Signs Now	Greeley	3	Manufacturer	We manufacture and retail signs and graphics	Our business is down over 50% from the previous year	\$ 10,000.00
038. Diamond Detail	Greeley	5	Auto Repair/Maintenance	We are a mobile fleet wash. We work with large semi fleets and heavy construction and Agricultural equipment. We also wash some on construction sites.	More than 1/2 of our clients "closed their doors" to any outside traffic. That included us. Since we are 100% mobile, all cleaning takes place on the clients property. We lost about 60% of our revenue in the course of a few weeks.	\$ 10,000.00
039. Rojitos Severance	Windsor	11	Restaurant/Bar	We are a restaurant that offers carry out and dine in services. We opened in November of 2019 and were hitting our stride in March of 2020 just before the COVID19 related closures.	Due to the state wide closures for dine in and the fact we were a new business from November of 2019 we did not have a very large carryout following. This impacted our revenues over 50% and forced us to close for most lunches during the week in order to be able to pay a core group of employees.	\$ 14,049.80
040. Leslie Jewelry	Fort Lupton	1	Retail	Jewelry store. Selling jewelry and doing jewelry repairs.	We closed and have lost large amounts of revenue.	\$ 10,000.00
041. Evans Area Chamber of Commerce	Evans	2	Chamber	We provide education, visibility, advocacy and a network for our dues paying members. Dues are kept low, especially for small businesses who cannot afford to join larger chambers or industry groups. We also have 4 fundraisers each year to supplement our dues income. They are an Annual Dinner, Golf Tournament, Clay Shoot and Softball Tournament. We donate a portion of our income from each of these to another non-profit. We receive no income from the City of Evans.	Due to the pandemic we have not and will not be able to hold our Annual Dinner, Clay Shoot or Softball Tournament this year. The Annual Dinner generated \$14,000 income in 2019, of which \$2,000 was donated. The Clay Shoot brought in \$1,750. \$750 was donated to a non-profit. Our Softball Tournament netted \$5,000 and \$1,250 was donated. Our smaller members are having a hard time paying dues. Many of them are not paying, even with the offer of a payment plan. They don't know if or for how long they will be in business. This is a large percentage of our membership. We have stopped trying to collect on nearly \$10,000 as of this date.	\$ 10,000.00
042. Nail Care First	Firestone	3	Spa	We are still in operation, but business is limited	Loss of revenue due to COVID-19	\$ 10,000.00
043. Adamson Warmuth VFW Post 6624	Evans	4	Non-profit	There is a canteen and there are games of chance. we also do fundraisers to support veterans in need	The business was closed for over 3 months	\$ 10,000.00
045. Garden of Healing Massage Therapy	Windsor	1	Service Provider	I am a massage therapist and I generate revenue by providing the service of massage therapy and a small amount of retail sales.	I was not able to do any massage therapy for 3/17 - 5/4 and thus had no income during that time. When I returned on 5/5, business was slow to start and it has still not returned to where it had been pre-pandemic. I have also had to invest in PPE and other supplies to make my office space a safe place for my clients to return to. Due to the extra time I have to spend cleaning and sanitizing, I have to work more to earn less.	\$ 10,000.00
047. The Crew Presents	Greeley	5	Entertainment	The Moxi Theater is Greeley's independent Concert venue and performance space. We host and promote concerts and sell tickets and drinks. We also publish a monthly arts and entertainment magazine called BandWagon Magazine and provide marketing consulting and graphic design services through that part of the business.	From March 15th to June 21st, we were completely closed. Since June 21st, we've operated at a limited capacity and struggled to book any profitable events. We had over \$15,000 in refunded ticket sales. BandWagon has seen a 30% drop in ad revenue since March.	\$ 10,000.00

048. Greeley Rainbow	Greeley	1	Hotel (49 or fewer rooms)	<p>The Rainbow Motel on 8th Avenue in Greeley is a 16 room boutique motel / motor lodge that has been lovingly restored. We provide clean, safe and comfortable room rentals nightly with discounts for weekly and extended stays. We are the first visual reference when entering Greeley on 8th from the north. We are the nearest hospitality option for the Greeley Stampede and JBS.</p>	<p>Our business is heavily dependent upon tourism and events. Our busiest time of the year historically has been the summer months with peak being the Greeley Stampede and other events, which were cancelled due to Covid-19 this summer. Our motel is the nearest hospitality option for the Stampede. Our bookings were decimated our July bookings were down 58%, when the months of Jan, Feb and Mar were up over 10% from the prior year.</p> <p>While our revenue and bookings have been negatively impacted our cleaning expenses have increased where we were previously spending a half hour per room we now spend 45 minutes per room. This has caused an increase in the average cost of cleaning a room each night by \$4, and with 895 booked room nights since 3/1 - 8/15 we incurred increase of cleaning by \$3,580.</p> <p>A significant portion of the activity near our motel is from the JBS plant nearby, which has had several periods when it is shut down to address the Covid 19 issues and that caused a significant reduction in the traffic and activity near the motel as there were no deliveries, etc that we target for potential customers that might need hotel / motel options.</p> <p>We plan on the summer months funding our operations during the slow months, which did not happen this year.</p> <p>We had difficulty procuring toiletries and toilet paper which lead to significant increases in costs for those items over last year.</p> <p>This created more competition of hotels targeting non event business and has caused downward pricing pressure where we are selling rooms for \$20 - \$25 less than we were a year ago.</p>	\$ 10,000.00
049. She Nails	Erie	4	Spa	We provide manicure and pedicure services. We are a full service salon for nails and waxing.	We were forced to close for 7 weeks (from 03/19/2020 to 04/30/2020). After opening back up, the income has been hit hard. Income dropped about 50-60% since we couldn't take any walk-in and were also short-handed in staff.	\$ 10,000.00
051. Raven Sign Studio	Greeley	3	Manufacturer	Sign shop - producing and installing commercial signs.	Revenue has dropped due in part to the limited occupancy regulations. A large portion of our business comes from events & fundraisers. With these functions being put on hold or limited in size the need for advertising has subsided. Other businesses that have seen a drop in their revenues are not putting funds towards the signage that they would have previously had budgeted. This has had an overall effect across the board with all our clientele.	\$ 10,000.00
052. EE Willow Holdings	Greeley	9	Restaurant/Bar	Full service breakfast/lunch restaurant.	We were forced to close, and then allowed to open for carry out which did not generate revenue. We are currently allowed to open at 50% compacity.	\$ 15,000.00
053. EE Market Holdings	Greeley	10	Restaurant/Bar	Full service breakfast/lunch restaurant.	We were forced to close, and then allowed to open for carry out which did not generate revenue. We are currently allowed to open at 50% compacity.	\$ 15,000.00
055. Colorado Language Program	Greeley	3	Education Center	We offer ESL, GED and US Citizenship classes. Students tuition fee is \$300 each class per semester.	We had over 30 students when we opened in January 2020. They were not able to pay their monthly school fee since they lost their jobs. We continued the class via remote learning, and our teachers and staff spent their time teaching the class. I used my personal savings money and husband's retirement money to sustain the business, and provide education to our students.	\$ 795.03
056. Zamar Screen Printing Inc.	Hudson	4	Manufacturer	We are a textile screen printing, embroidery and promotional products company. We primarily sell to businesses, schools, and organizations in the Colorado area.	We were forced to close and had less business due to the closure. We had lots of cancellations due to events and sports being delayed.	\$ 10,000.00
057. Karen's Kids Childcare	Windsor	1	Daycare	<p>My business is a licensed child care business (Colorado license #62517). My revenue is generated for my services at a rate contracted with individual families.</p> <p>NOTE: In 2019 I had to have two major surgeries for which I had to work with decreased enrollment due to physical limitations. Income figures for 2019 reflect this.</p>	Due to Covid-19, I was forced to close my business on March 13, 2020 for the safety of my clients and my family. I reopened at limited capacity on August 18, 2020. I had no income during the closure. This created an extreme hardship on our family's financial status. Because of continued precautions I must take and reduced capacity, I am not earning my full potential because I must keep my enrollment low for social distancing and other safety reasons.	\$ 419.27

058. Orthodontic Associates of Greeley	Greeley	7	Healthcare	We are a fee for service orthodontic practice. Our main source of income is generated through starting new patients in orthodontic treatment. We offer all of our patients in house, 0% interest financing and monthly payment plans. We also receive income from dental insurance plans. Once an insurance claim is submitted, the insurance company determines if they pay us monthly, quarterly or annually.	Due to the COVID-19 virus and regulations put into place by Governor Polis, we were forced to close our office for a period of 2 months (March-April 2020). This means that our existing patients were not actively monitored during this period of time, nor were we able to see potential new patients. Being a small, locally owned, private practice, EVERY PATIENT COUNTS, whether new or existing. Missing out on just one new patient has a tremendous impact on our year end numbers. Missing out on two month's of new patients has been challenging to overcome. Not only is our revenue down due to lack of new patients, we have several families in this office that have faced their own hardships caused by COVID-19, particularly job loss. We are very flexible with our patients that are set up on payment plans and have done our absolute best to work with our families who have experienced job loss. This means that we are currently not receiving monthly payments and/or monthly payments are delayed. While revenue is down, the cost of necessary supplies has risen and is more difficult to get in a timely fashion. We are having to order more frequently and increased quantities of disinfectant and PPE to ensure that we have a steady supply on hand while at a much higher cost, all the while meeting the new PPE requirements that have been imposed due to COVID-19.	\$ 10,000.00
059. Beautiful Addiction Tattoo and Piercing	Greeley	7	Service Provider	I own a tattoo and piercing parlor within the Greeley mall. The majority of our income comes from our customer appreciation sales where we do low cost tattoos and piercings to help prevent teenagers and young adults from doing them at home.	We almost lost our business due to cost of rent and not being able to open to pay rent 2 of my employees lost their homes. We have lost a large number of clients due to their fear of Covid and some due to mask mandates. We can't afford our rent, or the equipment it takes to keep us open let alone the cleaning supplies and gloves due to costs going up. We are only making in through thanks to donations of family members.	\$ 10,000.00
060. O'Sole Mio	Greeley	1	Restaurant/Bar	We are a restaurant providing take out, curbside, and catering.	After the fire in March 2019 we lost our business. We started using a different kitchen from our restaurant and providing only catering. We completely lost our catering business in March 2020 for COVID. We opened again in July 2020 with take out and catering.	\$ 10,000.00
062. Morgan Wireless	Greeley	1	Retail	Business selling cell phones and accessories.	I can't avoid paying rent despite limited income.	\$ 3,000.00
065. Brandi's Housekeeping Services	Greeley	1	Service Provider	I own Brandi's Housekeeping Services LLC. Brandi's Housekeeping Services does post construction clean up, commercial and residential cleanings. We provide a wide range of tasks for the community.	When Covid-19 started, I had 7 employees plus myself and we grossed \$76,728 for the past year. Covid-19 came, everyone had to quarantine, stay at home with their children who were forced to do online learning at home. Due to the nature of the pandemic, my clients and employees depleted down to "0" in a matter of 2 weeks. I had no choice at one point in time, but to cancel my overhead costs such as General Liability Insurance, Workman's Comp Insurance, and so on and so forth. I was able to receive a grant to help me re-establish my business name 2 months later.	\$ 10,000.00
066. Ohana Montessori	Frederick	8	Daycare	We are a privately owned Montessori preschool. We are open year round and care for children 6 weeks to 6 years old. Our only source of revenue is tuition payments received from our children's families.	We are a preschool educating and caring for children ages 6 weeks to 6 years old. August 2019 we expanded from an in-home to a large child care center. Our enrollment was steadily increasing until COVID-19. We had varying reactions from our families and community as to whether we could or should remain open. Some of our families were nurses, police officers/dispatchers, therapists/counselors, grocery store managers and other essential workers who were relying on us to stay open to provide care for their children as they had no other alternative while they continued to work. Others lost their jobs or had reduced hours and could no longer afford childcare. Some families were able to work from home and keep their children home full or part time. We had three families who were scheduled to start but due to having children at higher health risk disenrolled or delayed their start date. With the urging from our parents and the Colorado Office of Early Childhood, (who requested we stay open to assist essential workers), and to retain our employees we decided to remain open. Our student enrollment decreased substantially as did our only source of revenue. We are a privately owned preschool that does not receive any public funding. We reduced tuition for families in need as much as we could. We retained our staff, supporting our teachers with payroll, benefits and healthcare. We are two owner/employees and have been working 10 hours a day 6 days a week to cover increased staffing needs and to keep the school running with no compensation and personally paying for business expenses resulting in additional personal financial hardship. Expenses have increased due to re-configuring our classrooms to accommodate social distancing, increased cleaning services, purchasing personal protective equipment, paper products, adding tables/chairs/shelves/diaper changing table, etc. Many of these items were very hard to find and purchase and most products such as masks and gloves have been triple in price if you can find them. Each day is filled with uncertainty especially with cold and flu season coming soon. Our families are very concerned about the future and some are still out of work. We provide a very valuable service to our community in caring for the very young child, (infants, toddlers, and preschool ages). Without us, there is no other care in this area for these children. The childcare industry has been especially hard hit with areas of undeserved childcare and now the closing of many centers which will not be able to open again. We are a 100% women-owned business, one owners spouse is a disable Marine veteran. We have invested our entire personal finances, time, hearts and souls in the center and will continue to provide excellent care for the children and	\$ 10,000.00

067. La Petite French Bakery	Greeley	1	Restaurant/Bar	French bakery selling baking goods.	The concern when the pandemic started caused people to panic and impacted business operations. The business closed and is experiencing hardship to cover the expenses.	\$ 10,000.00
068. Greeley Hat Works	Garden City	11	Retail	Manufacture and sell custom hats. Our sales stem from the web, store front, wholesale and tradeshow.	With the mandatory shut down store front sales were diminished. The hardship individuals are finding themselves in has changed what consumers are purchasing causing our web and wholesale sales to significantly reduce. Most locations are not allowing tradeshow causing these sales to be minimal in comparison to the prior year.	\$ 15,000.00
070. CS Effler Corp	Windsor	4	Hair/Nails	Hair & Company provides personal services in the cosmetology field including cuts, perms, colors, and facial waxing. We also sell retail products for personal services.	We were shut down for over 40 days, our entire business structure has been completely altered in order to remain DORA Compliant. We are a convenience based business and due to the regulatory covid restrictions, our productivity has dropped significantly due to traffic limitations, new sanitation requirements, fear of viral transmission through interpersonal contact and overall business restructuring. We lost close to 40% of our staff shortly after the first month of reopening due to fear and a generous unemployment payout.	\$ 10,000.00
071. O-P Apiary	Hudson	2	Manufacturer	We produce and sell honey. We sell honey at retailers such as King Soopers, Safeway, and Whole Foods. We also sell at farmers markets.	COVID 19 has drastically reduced our sales at retailers and farmers markets. COVID also made us change our manufacturing processes to match the guidelines of the FDA for COVID prevention. We have lost approximately \$45,000 in revenue due to farmers markets, and retail shows that have been cancelled or poorly attended.	\$ 10,000.00
072. Gymstarz Elite	Johnstown	11	Gym	I own a gymnastics center. We provide gymnastics classes to children ages 18 months-18 years of age.	We had to shut down mid March through June 1st. We didn't charge tuition and offered all free classes online for the kids. We are down 30% compared to last year. Every time our business has a covid case we are having to quarantine that small group of kids for 14 days with no income being charged.	\$ 15,000.00
073. Hue Salon	Evans	4	Hair/Nails	I own a salon. I work behind the chair and I have 3 other stylists that rent a chair. When I was forced to shut down in March I didn't receive booth rent from them until May. I wasn't allowed to charge rent if the place of business wasn't able to provide work. Therefore, from the end of March until May 4th there was absolutely no income coming into the salon. When opening back up, I was only able to have 50% of my staff working at a time. Which means each of us were allowed 3.5 days a week to work. One client at a time, intense cleaning between each client. At that point I still couldn't charge full booth rent. I wasn't able to have any retail out to try and sell. I wasn't able to charge full booth rent until August, we are all allowed to work at the same time. But still one client at a time and no more then 10 people in the salon at a time. So we're still not making anywhere near what the salon was a year ago.	Before May 4th there was absolutely no income coming into the salon. When opening back up, I was only able to have 50% of my staff working at a time. Which means each of us were allowed 3.5 days a week to work. One client at a time, intense cleaning between each client. At that point I still couldn't charge full booth rent. I wasn't able to have any retail out to try and sell. I wasn't able to charge full booth rent until August, we are all allowed to work at the same time. But still one client at a time and no more then 10 people in the salon at a time. So we're still not making anywhere near what the salon was a year ago.	\$ 6,733.38
075. The Blue Mug Coffee Bar	Greeley	18	Restaurant/Bar	We are a local retail coffee shop located in Greeley, Colorado. We have three separate locations and we sell coffee drinks, baked goods and light lunch options.	We were forced to close our indoor operations in March of 2020 and only offer service to go. Because the University of Northern Colorado stopped classes our store located across the street from the University was too slow to remain open. We sold about \$20.00 each day we were opened so we closed that store until we were again allowed to open for in store dining. The summer was very difficult because each of our locations were way down in sales. With the help of the PPP loan and the Weld Recovery Fund we were able to retain our employees and make it through the summer. We are now in what should be our most busy season of the year and due to the closing of schools and the mostly online classes at UNC we are way down in sales. This is normally a time when we make extra money which gets us through the slower months of January, February and the summer months.	\$ 15,000.00
076. Toney Family Chiropractic and Wellnes	Erie	2	Healthcare	Our business relies on people coming in for treatment. We were forced to close for 4 weeks in April because of COVID and people were hesitant and scared to return for several weeks after that.	We lost a complete month's worth of revenue in April and saw our income start to significantly decrease in March through July. We have estimated the loss of income during that time is over \$18,000.	\$ 10,000.00
079. Munoz Insurance Company	Greeley	2	Insurance	We are an independent insurance agency. We work with several insurance carriers and offer insurance for personal lines and commercial.	In March we were force to closed our lobby working remotely and we did end up losing a lot of customers. Not only because of technology issues, but also because of the pandemic. We just opened our lobby back in June and we have been extremely slow. I cannot manage to lay off any employee as they do have families. We are in need of assistance.	\$ 10,000.00
080. Suite C Salon	Windsor	5	Hair/Nails	I own and operate a hair salon. The business makes money by providing beauty services and selling beauty products to customers.	The business was closed down for six weeks due to COVID-19. I had to lay off my employees and had to completely remodel the salon to prepare for the social distancing requirements when we were allowed to reopen. We had to remove much of the furniture, deep clean the whole studio, and move work stations to accommodate the requirement of 6-10 feet apart for guests. I also had to purchase PPE for both guests and employees. When we did reopen we could only allow 1/2 the customers in at a time so we had to spread out appointments. When we reopened we were not able to bring in more than a few customers at a time so we had to spread out appointments making the employees work longer hours to provide services for guests. We also have hired a cleaning crew who comes in once a week to do a deep cleaning of the whole facility.	\$ 5,426.24
081. Cheap FX	Greeley	2	Education Center	We teach children ages 7-14 how to write code, and provide other STEM activities. Students enroll and pay on a month-to-month basis. We also have some very minimal retail sales.	Enrollment was cut drastically. We had training and soft-open in January, and had to close our doors in March. We are able to open our doors again, but operating with limited income and growth.	\$ 3,826.33

082. Windsor Concepts	Windsor	1	Restaurant/Bar	Our business is a restaurant and brewpub.	Per Governor's orders we shut our doors completely in March. We were closed for several months. During the pandemic we rebranded to become more take out friendly and accommodate another potential shut down. We lost 4.5 months of revenue and laid off 20 + employees.	\$ 15,000.00
083. Professional Hair Design	Evans	3	Hair/Nails	My business is solely operated from the individual people we see on a daily basis. We are a family salon so our business is impacted by people. We have 3 stylists who currently are working.	COVID has affected my business in a few different ways. We depended on our walk in clientele, and now due to restrictions we have been unable to take walk in clients and require an appointment for each service. We have to take more time in between our clients to properly clean and disinfect our stations and seating area, and we have log books for every hour to track what we are cleaning to make sure our clients and ourselves are as safe as possible. Our cleaning supplies are up a lot from what it used to be due to making sure each client has a clean cape, clean chair, clean environment. We have to turn away clients because our limited spots due to covid.	\$ 6,030.03
084. MOHR Cuts LLC	Greeley	23	Hair/Nails	MOHR Cuts LLC and its subsidiaries operate as full service family hair salons. MOHR Cuts LLC purchased four locations dba Cost Cutters in July 2019. Three of these locations are located in Weld County and have been in operation since 1999. The Centerplace location commenced operations in 2003, The Bittersweet location commenced operations in 1999 and the Firestone location commenced operations in 2004.	Pursuant to a PUBLIC HEALTH ORDER issued by the Colorado Department of Public Health and Environment, MOHR Cuts LLC and its subsidiaries were required to close for the period March 19, 2020 thru May 4, 2020. Upon reopening each of MOHR Cuts locations were subjected to capacity restrictions, enhanced costs associated with increased signage, sanitation and PPE requirements, and the elimination of accepting walk-in traffic. Customer traffic has also been effected by decreased consumer confidence around the pandemic, consumer financial concerns and less consumer attention to hair care services.	\$ 15,000.00
085. Kidd & Co	Erie	21	Restaurant/Bar	Full-service restaurant serving food and alcohol.	Forced to drastically limit operations due to public health orders related to COVID-19. We can only operate at 50% capacity and experienced significant decrease in sales due to the limitations.	\$ 15,000.00
086. BBB Fashion	Greeley	5	Retail	Our store sells women's clothing, shoes and accessories.	Our store was closed from 3/20/20 to 6/27/20 because of the COVID-19 virus.	\$ 10,000.00
088. Carbon Valley Home Services	Frederick	1	Service Provider	Handyman services business that generates revenue by performing services for homeowners & small businesses.	Drastically reduced number of available jobs.	\$ 10,000.00
090. Carbon Valley Chamber of Commerce	Firestone	1	Chamber	A local association to promote and protect the interest of the business community. Revenue is generated through membership dues, an annual dinner, an annual golf tournament and other fundraising events as directed by board of directors and needed within the business community.	We survive on membership dues and event fees. We have had to cancel all events and luncheons due to COVID-19 so we have no revenue coming in. We are working with our members individually to set up payment plans to be able to pay their dues but still provide services to the community and keep their employees working.	\$ 5,944.47
091. R&M Services	Fort Lupton	2	Auto Repair/Maintenance	We have been a family owned and operated business since 1947. We provide general automotive repairs and maintenance to most makes and models of vehicles, including: exhaust repairs and custom exhaust, oil changes, tires, batteries, brake service, diagnostic and emissions repairs. We not only provide this service to the general public but also provide it to the Fort Lupton Police Department and two divisions of the City of Fort Lupton. We generate revenue by providing these services, providing parts for repairs at a percentage for profit and providing the labor.	Our business has seen drastic reduction in customers and income due to COVID-19. On September 8th one of our employees tested positive for COVID-19, forcing us to close and quarantine for the mandatory 14 days, subsequently cutting off all source of income.	\$ 10,000.00
092. Jianbao LLC	Greeley	1	Spa	Jianbao is a massage therapy business.	Our business was closed from March until June. We are not good at English so it has been hard to get help.	\$ 10,000.00
093. Knowledge Bound	Windsor	1	Retail	Knowledge Bound is a retail and online store that sells educational products and toys.	COVID19 has caused my business to operate on less staffing and less hours. We have lost a lot of business for educational products that we would normally sell to schools. In May & June our sales were down 30%. In addition to the lost revenue, I lost a contract with a company that we created marketing and product research for because we were unable to have customers in the store. The total revenue loss from these two things was \$29,000. I continued to pay employees for working even when I didn't have enough work for them.	\$ 10,000.00
094. Collins Muffler and Service	Greeley	4	Retail	Automotive service & repair and exhaust service & repair	Our daily customer base really slowed down and some weeks came to a halt. We had to limit to 1-2 customers at a time in the customer service area. Most payments were done by phone, so our credit card fee went up. Many days we opened later and closed early. We stopped working Saturdays, and are currently closed for Saturdays. Cost of supplies have gone up, we haven't raised our prices because we are trying to keep our loyal customers. Not really related to COVID-19, but with 10th ST construction our main intersection entrance to our business location has been closed off. So business has really slowed down with that involved as well.	\$ 10,000.00
095. Lasertrak Alignment	Greeley	1	Auto Repair/Maintenance	Alignments for semi-trucks and general repair and maintenance for big trucks.	Had to limit services and there was a drop in alignments.	\$ 10,000.00
096. El Tradicional	Greeley	10	Restaurant/Bar	We are a family owned Mexican restaurant. All of our revenue comes from our food sales. We also sell alcohol but most of our sales is food.	As a business that had recently opened, COVID has hit us hard. We not only had to close for a couple of months like the rest of the restaurants, but we had to cut down on staff. Take out orders did not help many days we had to close early and just go home as we had no orders at all.	\$ 10,000.00

097. Clarity Pools	Frederick	7	Service Provider	Clarity Pools is a swimming pool service and maintenance company. Our primary source of income comes from the service and maintenance of HOA community pools.	The bulk of the HOA pools did not open due to the virus and legalities surrounding the opening of those pools. Those that did the hours of operation were greatly reduced. This has severely affected our ability to hire additional employees and meet new facility rental agreements. While we are still able to meet our financial obligations it will be a struggle through the winter when our jobs will downsize as it does every year.	\$ 10,000.00
098. Firestone Chiropractic	Firestone	1	Healthcare	We are a chiropractic office charging a fee for services and and health products. Services are provided by the business owner.	Closing my business for 6 weeks (2 because I was ill and quarantined) destroyed both present and future revenue. Re-opening with restrictions has kept it at 30% decreased visits since. There is no way to increase to previous levels (which were increased in Aug-Dec. 2019 through Feb 2020 compared to the previous year) until restrictions (No walk ins, no waiting, distancing patients, etc.) can be lifted. Lost revenue from auto cases affects my business for up to 3 years! The revenue I am experiencing now reflects the increase in business I had been enjoying before Covid. The 30% decrease will not be reflected for another 3-4 months....	\$ 8,572.43
099. High Brau Taphouse	Greeley	2	Restaurant/Bar	High Brau Taphouse is privileged to serve both the UNC and local 21+ communities by providing a safe and refined environment distinctive from other local drinking venues. Since its opening, the business has attracted an ever-growing group of regulars who come to socialize and have an outlet to relax and explore new and exciting offerings from the Colorado craft beverage industry. By restricting inventory to exclusively independent, Colorado-based providers, High Brau Taphouse has been successfully showcasing little-known or unreachable Colorado brewers, vinters and distillers to the Northern Colorado public and has become a hub for craft beer discourse.	High Brau Taphouse suspended operations on March 17, 2020 in compliance with state mandated bar and restaurant closures; 100% loss of sales for the next two and a half months prior to reopening on June 2, 2020 is estimated at \$30,000. Expenses during the closure were minimized but still totaled just under \$9,000, not including back rent and deferred payments on existing long-term loans and utilities. An estimated additional \$15,000 worth of inventory (food and drink) expired and required disposal during the closure, although the cost of goods to replace the expired inventory was near \$4,300. Since reopening, the business has observed the required 50% patron capacity limit which has reduced sales by near half since resuming operations. High Brau Taphouse has also suspended special events and private party bookings which provided a considerable boost to monthly sales.	\$ 10,000.00
100. Living Water Skin Spa	Greeley	1	Spa	I operate an esthetics practice at 4665 W 20th St Ste B. I am the sole practioner. I do facials and corrective procedures for skin and provide a little escape and pampering from the daily grind. My sole income is providing these services to my clients. I was closed March 13 through June 22 due to Covid-19. My business continues to suffer due to clients being afraid to come in despite additional safety precautions, ppe supplies, cleaning and sanitizing agents to meet protocols in place.	As stated above, I was closed due to Covid-19 from March 13-June 22. Additionally I have several clients afraid to come in for services and several who have extended their time between appointments therefore I have many openings not being filled. I am currently working at about 50% of pre-Covid. During this time of being shut down and working a partial capacity, I had rent, insurance, utilities that were due as well as the need to purchase additional cleaning and sanitizing agents and ppe. I also have had to change how I schedule my clients to have longer cleaning times between each which reduces the number of clients I am able to see. I previously shared a space and equipment and she has decided to close her business and now I am faced with saving money for necessary equipment (approximately \$1000) that she had purchased that we shared.	\$ 1,166.49
101. Northern Vision Smoothies	Windsor	12	Restaurant/Bar	Inta Juice is a Northern Colorado franchise that sells smoothies, veggie blends, wheatgrass shots, smoothie bowls and some food. We make money by selling these items. My wife and I co-own the smoothie shop and live in Windsor. Inta Juice is our sole source of income.	Our business has been severely affected by the COVID-19 health crisis since. We have only been open since November 29th of 2019, however we did not have our "Grand Opening" until February 29th, 2020. We then had a very good early-March when we generated our two highest single day sales (excluding Grand Opening). These occurred on March 6th and 7th when we brought in \$2,115 and \$2,310 respectively. However, since mid-March, we have failed to get anywhere near the numbers we were seeing in February and early-March; and in nearly seven months we have only eclipsed \$1,500 on five occasions. And to this day we struggle to exceed \$900 a day. To put this another way, from February 1st to March 16th, 45 days prior to the heart of the pandemic, we averaged just shy of \$1,350 a day. (Full disclosure, this number is slightly skewed considering it includes our Grand Opening Day Sale, a day in which we generated \$4,025. Still, if this day is removed from the equation, we still averaged close to \$1,300 a day during this 45-day period.) And these sales were accumulated during a colder time of year. Then the pandemic hit us during the time when Inta Juices traditionally start seeing sales pick up due to the warmer weather. In fact, March is typically other Inta Juice's busiest month of the year. However, from March 17th to April 30th (the next 45-day period), we averaged just \$755 per-day. Those numbers again: \$1,350 before to \$755 during/after... We never fully closed during the shutdown, but there were days that we might as well have been. So, although we do not have the luxury of looking at a year-to-year sales comparisons, you can see the drastic impact COVID had on our revenues, dropping them nearly 50%. The reason the totals for expenses and expenditure are zero in Step 1 of the Business Interruption Worksheet below is because we were not open last year at this time. And therefore, we must rely on estimates and data from the weeks and months just prior to the shutdown. In mid-March we also started requiring employees to wear gloves more often, and we increased our cleaning regiments, both of which have added to our expenses. Furthermore, we had no indoor seating for months, which, along with all the COVID	\$ 10,000.00

102. Hugos, Inc.	Greeley	14	Hair/Nails	Hugos is a established barber shop in Greeley, Colorado. East. in 2010 Hugos has become a statue in the community though community developments and charitable events consistently through out the past 10 years. Hugos generates its income primarily through professional services and liquor sales from its bar.	Hugos, just like the rest of small business have had a hard time staying afloat from the covid shutdown. Our state governor has regulated our ability to provide services and limited to a point that its more beneficial to close our door then to stay open. We had a loss of 18-20k revenue a week for nearly 8 weeks of our shutdown. After reopening we are at a 10-14k loss of revenue a week because of the regulations on how may professionals were can have working. Prior to covid we nearly invested everything to open our new expansion. We were shut down for 12 days before our grand opening. it has been an absolute nightmare with covid but even more from the governors regulations on us. We are drawing one day at a time financially even though the business is still growing we can't operate at full capacity.	\$ 15,000.00
103. Moonlight Carriage Company	Nunn	1	Entertainment	We offer carriage rides at multiple locations and events and private residences throughout Northern Colorado with 95% of our business being in Weld County. Private carriage service is offered by appointment and under contract and we also travel to events to sell rides.	We have lost 99% of our business due to Covid-19. We no longer have events to go to to sell rides, like Friday Fest in Downtown Greeley. Most weddings have been cancelled or limited to only a few guests and rightly so, family and friends get those counted spots. At this point in the year (September) we are typically booked every weekend (and multiple events each day) from Thanksgiving to New Year. We have 1 job booked for 2020. Unlike most companies our assets (horses) eat every day even if there is no work.	\$ 10,000.00
104. McClave Voice and Piano Studio	Erie	1	Service Provider	I teach private voice lessons and private piano lessons. All revenue comes directly in exchange for providing these services.	Due to the COVID-19 virus, I have been unable to hold lessons in person since March 12, 2020. Several students had to cancel previously scheduled/planned lessons due to either losing their jobs or their parents losing their jobs. All group classes I was contracted to teach were canceled due to public health orders and restrictions. I was contracted to teach several summer music camps and these were all canceled, resulting in thousands of dollars of lost projected revenue. Although the remaining private lessons were able to be moved to an online platform, this required additional software expenses and additional teaching materials that otherwise would not have been purchased. In addition to teaching online, I moved some classes outdoors, which required additional supplies and equipment due to dealing with weather.	\$ 1,460.32
105. Something with Pizzaz	Windsor	1	Service Provider	I sell promotional products to large and small business, civic organizations, and schools. I have wholesale vendors and I charge retail to my clients.	For the first time in 25 years I filed a 0 sales tax return in the 2nd qtr 2020. My clients are either suspending purchases or simply have no funds. My business came to a complete stand still.	\$ 10,000.00
107. Clown Green Enterprises	Windsor	5	Service Provider	Salon and spa providing services for hair, skin, and nails. We also generate retail sales of such beauty products.	<p>We were forced to shut operations down for over 6 weeks. When we were able to reopen, we had to decrease the number of clients and employees in the salon at any given time. We adjusted our business hours and days we were open to partially compensate.</p> <p>We rerouted traffic flow, had clients call from their car and in some cases had to process their hair color in their car. Although we are a full service salon, we could no longer provide or offer facials or skin care services.</p> <p>While wearing extra protection for both client and service provider, we built in extra sanitation processes for each service and station. We took payment at the chair lessening bottle-necking at the front desk. More sanitation processes increased required time for each service with less possible clients a cosmetologist could service in a shift.</p> <p>We created a special time for elderly and compromised clients to get haircuts on a normally closed day and time. We had to staff this time slot. Some clients have not yet returned due to personal fears. We have reached out to these guests and offered special treatment. We fear this may be a permanent loss for our business.</p> <p>We hired and partially trained 2 new stylists for a brief time in June and July, they ultimately quit due to the high demands of the new procedures. A large part of our summer business is always around people taking vacations and getting ready for travel with new beauty attention. No vacations and no travel resulted in considerably less summer business and revenues which is always used to get us through the leaner times of the year. Plus, there is always a spike in business around school starting. With on-line schooling, this push was non-existent this year. Again, this spike was used to get us through lesser times.</p> <p>As an aside, we are also extremely worried about the holiday season with no travel this year. November and December are hands down our most revenue generating months. People staying home for the holidays will lessen their need to have their beauty services done. This is extremely concerning and may result for hardships well into 2021.</p>	\$ 10,000.00

108. Greeley Town Center Business Association	Greeley	3	Non-profit	<p>The Downtown Development Authority is a special district of the city of Greeley and operates to foster economic development and revitalization within downtown. The mission of the Greeley DDA is to create, support and promote endeavors that enhance downtown experience, business growth and private development in Downtown Greeley.</p> <p>The DDA generates revenue through a 5 mill levy, donations from private companies, events (primarily Oktobrewfest), City funds, and Tax Increment Financing (TIF).</p>	<p>Because of COVID, the DDA received about \$15,000 less in private donations, was not able to host the usual version of Oktobrewfest (lost net revenue of \$45,000), and has taken on significant expenses for the marketing campaign (\$43,000) to support the businesses which was not budgeted for.</p>	\$ 25,000.00
109. Platte River Fort Restor and Event Center	Kersey	13	Entertainment	<p>Platte River Fort is a resort and event center and generates revenue from venue rentals for weddings, corporate retreats, and parties. Our events generally range from 30-600 people. We also generate revenue from food/beverage/alcohol sales sold during events.</p> <p>In addition to our event venue we also have a bar & grill, lodging, glamping and camping which generate income.</p>	<p>On March 16, 2020, due to the Governor's Stay at Home Order, PRF was closed. 95% of our events were cancelled in 2020 due to social distancing orders and restrictions prohibiting us from opening our event center. We continue to have difficulties scheduling events in 2021.</p> <p>Weddings are the base of our event sales and revenues. Due to COVID, 17 weddings were cancelled or rescheduled in 2020. We estimate that an additional 3-5 weddings sales for 2020 were also lost.</p> <p>In addition to events that were cancelled, we estimate at least \$75,000 worth of additional sales in 2020 which would have occurred throughout the season for parties, retreats, lodging and food and beverage sales.</p> <p>PRF also incurred unanticipated expenses in order to address COVID safety requirements, additional staffing needs for enhanced cleaning, implementation of "no touch" POS system, modifications to our kitchen to allow for social distancing for staff, improvements and remodeling to our Courtyard and to our outdoor patios areas for increased seating, and others.</p>	\$ 15,000.00
110. Johnstown Family Dentistry	Johnstown	7	Healthcare	<p>We are a dental office which provides all basic dentistry.</p>	<p>We had to shut our practice down per the government and the ADA for 2 full months only seeing emergency dentistry that did not involve picking up a hand piece. We saw 3 cases over that 3 months.</p>	\$ 10,000.00
111. Renatus	Firestone	6	Restaurant/Bar	<p>Renatus, Inc. is a full service restaurant that generates revenue from sales of food and drinks.</p>	<p>COVID-19 has impacted Renatus, Inc. in ways we could never imagine. We temporarily closed operations in March, following the recommendations of the CDC and Governor Polis. We had to furlough all of our employees, and it was extremely difficult for us to pay rent, utilities, and employees when we opened up again in May. Since May we have had 6 employees work for us, down from 12-15 in 2019.</p>	\$ 10,000.00
112. Fat Albert's Inc.	Greeley	28	Restaurant/Bar	<p>Sales of food and alcohol.</p>	<p>We were unable to serve on site and reduced overall sales by more than 50%. We were also unable to sell alcohol for some time. We experience a loss of food due to lack of sales.</p>	\$ 20,000.00
113. Assistance League Greeley	Greeley	1	Retail	<p>The Assistance League Greeley operates the Bargain Box Thrift Store. The Bargain Box is stocked with donated articles of gently used clothing and small household items. It is staffed entirely by Assistance League volunteers and is the main source of income to sustain our philanthropic programs.</p> <p>The Bargain Box net sales in 2019 were \$262,665.</p>	<p>Both income and donations have suffered due to the Covid 19 pandemic. We were forced to close the thrift store for a portion of March; all of April and May and half of June. We are currently open approximately 36% of our normal operating hours. Many of our volunteers are in the high risk category and are not able to work volunteer hours at the Bargain Box Thrift Store.</p> <p>Revenues from September 2018 through August 2019 compared to September 2019 - August of 2020; indicate that the Bargain Box has generated \$114,977 less in net sales. Note: A portion of this is due to the store closing in January and February for store renovations, accounting for \$1,430.</p> <p>We calculate that net sales loss due to Covid 19 are \$96,274.</p>	\$ 10,000.00
114. Rhythm & Rhyme Tyme	Windsor	1	Education Center	<p>We provide preschool music enrichment classes to Child Care Centers and Homes throughout the front range of Colorado, including Weld county.</p>	<p>Due to Covid-19 we are unable to provide our services to Child Care Centers and Homes because of State restrictions concerning outside vendors and visitors being unable to visit or enter these Centers.</p>	\$ 10,000.00
115. Windsor Chamber of Commerce	Windsor	1	Chamber	<p>We are a membership/sponsorship organization, funded by local businesses.</p>	<p>Due to the lockdown/shut down we have seen over \$29,000 in membership loss because the businesses we serve can not afford to pay their membership. We have made arrangements to support as many businesses as possible.</p>	\$ 10,000.00
116. Longview Kennels	Berthoud	12	Pet Services	<p>Happy Tails Dog Ranch is a Doggie Daycare/Dog Boarding Kennel. Our revenue is generated through providing services for pet owners while they are away from home for work and/or traveling. We generate revenue through boarding, daycare, training and grooming services. We also have a small retail area selling dog treats.</p>	<p>With people working from home and fearing travel due to the pandemic, Happy Tails has seen a decrease in revenue from March 15, 2020 to current date, September 27, 2020. We are beginning to experience another drop in business moving into the Fall/Winter months. Prior to COVID-19, Happy Tails was growing revenue at over 20% per year and was named as one of the fastest growing businesses in Northern Colorado by Bizwest for 2017 and 2018. We were starting the process of expanding operations and adding more employees prior to COVID-19.</p>	\$ 15,000.00

118. JDMK Global	Firestone	12	Hair/Nails	We are a men's hair salon selling haircut services and hair care products.	We were forced to close for 5 weeks and since we have been able to reopen we are only allowed to be at 50% capacity. That has cut into our services and our ability to see products. We have also had increase in costs with us having to increase in cleaning supplies, provide for PPE for both employees and clients, as well as change our supplies such as more capes for clients. We have seen a 25% decrease in revenue over the same time period of last year even though our employee costs have gone up due to the increase in minimum wage at the beginning of the year.	\$ 15,000.00
121. Kress Enterprises	Greeley	2	Entertainment	Movie theater and bar lounge. We depend on people coming in and watching movies.	We had to close down due to the state mandate. We had to let go almost all of our employees.	\$ 10,000.00
122. Intermountain Data Corp	Greeley	1	Service Provider	Employment and tenant screening services.	Loss of business due to reduced hiring and the inability of landlords to evict or change tenants.	\$ 1,721.50
123. Tiny Tykes	Firestone	2	Daycare	<p>I am John Jaquish, owner, and Director of Tiny Tykes Preschool & Daycare. Thank you so much for offering an incredible grant program to help our licensed Family Child Care Home during these difficult and unprecedented times. I am formally submitting a request for this Grant.</p> <p>Our facility is licensed through the State to care for 12 children daily Monday thru Friday. We are also licensed for overnight care. Parents pay weekly for their child's care, and we do have low income families on the state funded CCAP program.</p>	<p>I consider myself a Colorado native, seeing that I have lived here since I was four. I was raised and went to school in Nederland. From Nederland I went on to be a three-sport athlete at Western State College. At WSC I earned my Bachelor of Arts Degree in K-12 education. After college, I jumped into the work force instead of completing my student teaching. One of the owners of a business for which I was providing nighttime security, also owned two large Child Care Centers in Boulder, CO. She was short staffed and knowing my education background, asked if I would help for a few weeks. A few weeks turned into a few years, and ultimately, a new Early Childhood Education Degree and Director License. I fell in love with teaching and interacting with the little ones. This experience gave birth to my dream to build and run my own Child Care Center. I wanted to be able to pursue my passion, along with have a place where I could provide a safe, fun, and educational experience to any child or family in need.</p> <p>For the first time since we opened our doors 7 years ago, I have feared having to close our doors to Tiny Tykes Preschool & Daycare. In March, when the Stay at Home Order was issued, over half of our families either kept their child home - some withholding pay, or withdrew their child(ren) completely not knowing what the future held. For those families that wanted to stay enrolled with us, but were keeping their children home - we got creative and started delivering weekly "Covid Baskets" to each families front door every Monday morning for 8 weeks. The baskets included several worksheets, multiple crafts and supplies, as well as toys to help the parents keep their child involved and busy while they were at home. We also included some type of food treat activity - such as personal pizzas, cookies and donuts to decorate, etc. There was a cost to all of this, but our hope was that families would see we were still trying to provide a value to their kiddo and would keep paying tuition even in their absence. In some cases they did, but definitely not all.</p> <p>Even though we were under numbers we made the decision to keep our Lead Teacher's hours normal so that we didn't risk losing her. Stability in our team is a huge priority to us, as our families value the consistency for their kids. By doing this, it also effected our revenue, as our payroll didn't really decline.</p>	\$ 10,000.00
124. Maggies Java Joint	Greeley	10	Restaurant/Bar	Cafe selling food and coffee.	We had to close due to the state mandate. We also had to lay off and retrain staff.	\$ 10,000.00
126. Mood Ease	Windsor	4	Spa	We offer various massage therapy services.	We were closed for 2 months. Income diminished. Unfortunately lost several clients due to the fear of the virus. Unfortunately one massage therapist also chose to not return due to the virus.	\$ 1,574.27
127. Windsor Gymnastics Academy	Windsor	18	Gym	Gymnastics instruction for the youth.	We had to close for almost 3 months and are still working in a limited number.	\$ 15,000.00
128. Little Angels Christian Preschool	Windsor	5	School	We provide childcare services and an academic preschool.	90 % of our families could not go to work so they did not bring their children. Therefore it was a major loss of income.	\$ 2,928.33
129. AGPRO Environmental Services	Greeley	20	Service Provider	AGPROfessionals is an agricultural development/consulting firm. We provide engineering, surveying, land planning, regulatory and real estate services.	<p>Our clients are taking longer to pay for services and some have been unable to continue projects or pay for services.</p> <p>Projects have been put on hold due to COVID-19 virus; therefore reducing revenue to our company.</p>	\$ 2,890.74

131. Memory Lane Antiques	Windsor	8	Retail	I have a retail gift and antique store as well as a restoration shop. The restoration shop is in the same building as the store. The restoration shop consists of refinishing of antique as well as new furniture, upholstering of furniture, and designing and making custom furniture.	During the mandatory shutdown of retail stores due to Covid19, my retail sales were sharply decreased from the previous year. Since the allowance of retail businesses to be reopen, my walk - in traffic is significantly lower compared to previous years. I would like to expand my social media platform as well as have an up to date website made to broaden my customer base and provide online sales for my customers as well as attract new customers. I looked into having a new website built, but right now I can't afford the expenditure of \$7,500 - \$10,000. In addition, the monthly maintenance fee for the website and social medial is \$800. My website is 10 years old and is obsolete as far as connecting with customers via a mobile platform such as phones and tablets. My website does not have the online sales capacity to provide an e-commerce platform for outside online sales to help my business offset the lack of walk - in traffic. I have spent \$540 for PPE for my employees as well as a hand sanitizing station for my customers. In addition to having my retail store, I participated in antique shows in the Rocky Mountain region as well as California and Utah. All of these shows have been cancelled due to Covid19. My income from shows has dropped to zero.	\$ 10,000.00
132. The Cutting Edge Barber	Johnstown	7	Hair/Nails	We offer barbering services (haircuts, colors, shaves, waxing, facial hair trimming, etc) to customers.	We had to close our business for 6 weeks, we were then only allowed to open at 1/2 capacity. We were solely a walk in shop only and customers would just show up and wait in line in our shop for a haircut. Our lobby is still not allowed to be open so we are still operating by appointment only which is a completely different business model that we had before. We have grown every year since being open and this year we have seen a significantly decrease in business overall, we are down over 40%.	\$ 10,000.00
133. Greeley Area Chamber of Commerce	Greeley	4	Chamber	Our non-profit generates revenue from it's member investors and non-dues revenue from events and sponsorships. We also gain revenue from a contract with the City of Greeley for Tourism services in the Greeley Area and region through a public private partnership.	The loss to lodging tax which funds our Visit Greeley services contract dropped significantly in the month of April and sustained that slow momentum which caused the City of Greeley to drop our funding from an annual \$250,000 to \$150,000 a representative loss of \$100,000 dollars. We have also lost revenue from some of our small businesses and closures of their business due to COVID. Our Chamber sustains its revenue model with 40% of the revenue coming from events. During COVID in person events have been drastically reduced resulting as well in lost revenue.	\$ 25,000.00
134. The Black Sheep	Johnstown	23	Restaurant/Bar	We are a family-owned pair of restaurants. Dominic's Pizza is a pizzeria and Black Sheep is a dine-in coffee and crepe shop.	Black Sheep was closed due to COVID-19 mandates from March 17-June 10. Since reopening, our business has been operating with reduced hours along with state mandated capacity restrictions for restaurants. Dominic's Pizza had to close its dining room March-May and reopened with very limited seating due to capacity restrictions, in order to practice required physical distancing. Additionally, due to public concerns we have seen a decrease in sales and customer traffic since reopening for dine-in.	\$ 15,000.00
137. Azteca Mexican Restaurant	Erie	5	Restaurant/Bar	We are a family restaurant providing food services. Our income is generated solely by our food sales.	Since Covid-19 we were forced to close our doors to the public. We had to drastically make cuts on staff since we were not selling any food. We were open for to go only orders but the foot traffic is not the same and we could not offer any hours to our employees. Due to the drastic loss of revenue, we needed to throw out a lot of food that wasn't getting sold and lost money there too.	\$ 10,000.00
138. Ben's Furniture TV & Appliance	Greeley	3	Retail	We retail furniture, TVs, appliances, wood flooring, carpets, delivery and setup.	Our past due rent is equal to 22K due to late fees, low income, low sales, and no money to pay employees. We experiences 1 employee under quarantine who quit because of the heal risk.	\$ 10,000.00
139. Kersey Pool Hall	Kersey	1	Restaurant/Bar	The business is a restaurant/beer only bar. We sell food and beverages along with entertainment, billiards and music.	The Governor issued a mandatory quarantine which forced us to sell curbside/pickup only as we do not have a drive through. after bars/restaurants were open we were allowed 25% capacity at first, then 50% now, with no seating at the bar. Our building capacity is 50 so 25% of that is 12 people for sit down. 0% of 50 is 0. Price of goods doubled, taxes were not relieved and income decreased. we still had to pay utilities, mortgage, and taxes. We closed early on days to preserve goods for the next day and we closed from 8/1/2020-9/8/2020.	\$ 10,000.00
140. D&S Squared	Greeley	6	Service Provider	Duds N Suds is a full-service laundromat, with drop-off service and self-service options.	Our revenue has dropped, due to COVID-19, and fewer customers are doing their laundry.	\$ 10,000.00
141. Frequency Healing Center	Greeley	1	Service Provider	It was a membership based business open from 7:00-7:00 6 days a week. We had a variety of equipment that helped with mobility and all around wellness. The members could come in and use the equipment as much as needed.	We had to shut down and shut off all of our memberships after the first month of being shut down. When we are able to open back up I could not hire any of our employees back. I was not longer able to have walk ins and did by appointment only. Most of our former clients were over 60 and were not comfortable coming back.	\$ 4,400.00
142. N.E. Time Metal Design	Nunn	1	Manufacturer	We have a CNC plasma table that we use to manufacture support products for the oil industry. We also make custom metal signs. As a sole proprietor we do the work inhouse without having any other employees.	Our demand has all but stopped because of the halt in the oil field. We produce items when they are ordered and we have had no orders since May.	\$ 10,000.00
143. Mini Mac Maintenance	Severance	1	Service Provider	Mini Mac Maintenance, LLC provides commercial native field mowing, parking lot cleaning and snow removal. The native field mowing and parking lot cleaning is provided from March-November of each year. Snow removal is provided as needed during the winter months.	During The Covid-19 virus many commercial businesses were closed and employees were working from home. These businesses deemed commercial mowing and parking lot cleaning a non-essential service and suspended these scopes of work. Snow removal work is unknown at this time.	\$ 10,000.00

144. Windsor Mill Tavern	Windsor	34	Restaurant/Bar	Windsor Mill Tavern is a full service restaurant and tavern that opened Oct 2, 2019, serving a full menu every night of the week and additional lunch on the weekends.	The restaurant business was arguably the hardest hit industry with a projected survival rate, especially for independent operators, that is very dismal. The initial reaction to the pandemic and the continued restrictions and regulations have made it very difficult to regain the traction that we started with as a new business that opened in late 2019. Nearly 30% of our workforce did not return upon reopening on 5/27/2020 forcing us to hire and train an additional 10 people. We unfortunately have lost many THOUSANDS of dollars and we hope to make it until 2021.	\$ 20,000.00
145. EJLP	Windsor	7	Retail	We assist customers in selecting custom window coverings for their homes or businesses, then measure, order, and install the same.	\$88,480.11 decrease in sales in March compared to 2019 \$36,479.37 decrease in sales in April compared to 2019 \$27,861.43 decrease in sales in May compared to 2019 In March alone, 40% of scheduled customer appointments were cancelled citing covid-19 concerns.	\$ 10,000.00
147. Revel Dance Center	Erie	1	Service Provider	I am co-owner and managing partner of Revel Dance Center LLC which is a small one studio dance school. We have students ages 3 to adult taking session long classes (there are three sessions in a year - Fall, Spring/Winter, and Summer) or drop in classes. Generally most of our students register for a session of a 45min, 1 hour, 75min, 90min or 2hr class. They typically pay monthly to attend although some students will pay in full the whole session up front. We hold annual dance recitals in the Spring as well that adds a bit of extra income for us as a business.	Beginning in the middle of March for 2 weeks we had to cancel classes to prepare for next steps in terms of safety and logistics. Beginning the last week of March 2020 all the way until Aug 17th all of my 28 dance classes changed to an online platform of live streaming dance classes through zoom. Before COVID and mid March our enrollment numbers were at 189 students. By the end of the session we had 80 students drop classes because they were not interested in zoom only classes. Our monthly revenue in January 2020 went from \$12,345 to \$5,069 monthly in April of 2020. Normally our monthly revenue doesn't fluctuate to that degree. On top of this our NNN costs (specifically effected by tax costs that were miscalculated by our landlord) went up greatly beginning in April of 2020 when we were still shut down as a business. We were charged back taxes for previous years 2018 and 2019 and paid \$3,663 directly to our landlord. Currently, beginning in August of 2020 we reopened to in person classes and have increased expenses due to cleaning materials, HEPA air purifiers, touchless thermometers and PPE. Our student numbers are currently at 138 students and we did not hold our annual recital in June, nor will we until next June of 2021. I also have smaller class sizes restricted to 9 students max and although I am teaching 25 classes a week I have classes that are full and have waitlists because I am unable to increase my student class sizes. Normal student class sizes were at 14.	\$ 10,000.00
148. China Kitchen Corp	Greeley	3	Restaurant/Bar	My business is a full service Chinese restaurant selling Chinese foods. We also do delivery and carry out.	Due to COVID-19, my restaurant need to be closed in April and May. We had no income for two months. However, we still need to pay all the rent, utilities and phone bills.	\$ 10,000.00
149. Lucky Panda	Greeley	4	Restaurant/Bar	It is a Chinese restaurant serving per scoop for dine in and carry out. We do delivery by third party as well.	Due to COVID-19, my restaurant had to be closed for two months (April and May). We had no income but still need to pay the rents and all utilities.	\$ 10,000.00
152. Erie Chamber of Commerce	Erie	1	Chamber	The Erie Chamber of Commerce generates its revenue through the following: 1) Membership Dues 2) Major Investors 3) Major Events (11/year) 4) Sponsorships	The Erie Chamber of Commerce has been affected by the Covid-19 Pandemic in the following ways: 1) September, 2020 is our annual Membership Dues Renewal. To date (9/29/20) we have received less than 1/3 renewals. (I am hopeful more renewals will be received in October which is typical for our members). Please note our reports reflect Acrual vs Cash income 2) Because all 11 of our Major Events attract crowds between 1,000-25,000 and in accordance with the State of Colorado Guidelines prevents crowds of the this size to gather, we have lost a substantial amount of income from booth sales, ticket sales, and beer/wine sales. 3) In addition to the above revenue losses, since there are no major events this year, we have lost most of our Sponsors. 4) Additionally, our Major Investors have substantially diminished. 5) Our total income for May-August 2020 compared to 2019 is down 41%	\$ 14,019.11

153. Sisu Therapies	Windsor	4	Healthcare	<p>Sisu Therapies was founded by married couple Laura Simenson, DPT and Joe Schroeder, DPT. The couple had a long-standing goal of starting a therapy and wellness practice together that offers a dynamic and holistic pathway leading to healthier lifestyles. Our clinic offers Physical Therapy, Occupational/Hand Therapy, Medical Massage, Wellness Classes, Personal Training, and Traditional Sauna. We bill insurance or accept cash for our therapy services. Our Wellness, Sauna, and Massage are cash-based services. We also offer some retail for clients who would like to buy "tools" that we recommend to help them with their rehab process.</p> <p>Mission To provide a positive and energizing center where clients can receive exceptional integrated therapy and wellness services from evidence-based practicing clinicians and staff. Recognizing every individual is unique, we strive to help our clients reach their goals and improve their overall well-being.</p> <p>Vision Sisu Therapies vision is to become a leading community resource who helps our clients optimize movement and function through innovation, collaboration, quality care, and consumer-centricity. At Sisu Therapies, we will strive to inspire client engagement in physical activity in order to optimize a person's abilities, contribution to society, and elevate their enjoyment in activities.</p> <p>Since opening, we have provided community talks, wellness events, and are a Tier 1 sponsor of the Windsor Half Marathon and Heavy 10K. Joe is a member of the Windsor Rotary and Laura works with members of the community including the Community Recreation Center to promote active lifestyles. We are working with other professionals on building programs for our community and surrounding areas that focus on youth diet and exercise; as well as, education for populations such as those who have diabetes and how exercise can help with disease management. We enjoy being involved in the community to promote healthy, well-rounded lifestyles.</p>	<p>We were slated to open our business April 20th, 2020. Due to the Stay at Home order, we waited until April 27th to open when Safer at Home was implemented. Elective surgeries make up a large part of the therapy business and those were on hold until the 1st or 2nd week of May 2020. As those surgeries started up again, there was a lag in therapy referrals-hospital-based outpatients started to fill up first. We know that they were low in census until at least the middle of June. Many orthopedic and general practices did not allow us to come inside of their offices to market our business and therefore, we were forced to drop off materials without speaking to anyone. We feel they were overwhelmed as well and unable to talk over the phone or a video conference. Everyone seemed to be scrambling in the healthcare communities. In mid- to late-July we started to be able to get into places to talk to managers of clinics to market our clinic. In August, we were invited by OCR to come in and market our business in Fort Collins.</p> <p>Along side all of this, the insurance credentialing business had come to a halt as well. Because we are a new company, we need to apply to insurances to be in-network. A physical business address is necessary before you can start to apply to insurances to be in-network. We signed our lease on Feb. 2nd and got started immediately on this process. However, some of the larger insurances closed their network to new providers including BCBS, United Healthcare, Kaiser, and Cigna. Medicare was also having troubles keeping up with all the new provider requests-given the new exceptions for providers to give care across states and through telehealth. It took us additional time to become credentialed with Medicare and Medicaid. We finally then were able to get on board with a workers' compensation insurance. Our whole insurance credentialing process was delayed by 2-3 months. We are still waiting on our final acceptance to BCBS as we were finally extended an application for in-network status after countless attempts by myself, pleading to allow us to apply given the amount of individuals in our area with BCBS. We are in the "contract phase" now with them and anticipate to be on-board any day now. We are now in-network with many insurances and continuing to apply to more. When BCBS accepts us as in-network, we will be calling our wait list of 50+ individuals who have called or been referred to us for therapy to see if they still need it and to get them scheduled.</p> <p>For the first 2-3 months that we were open, the population that we could serve was</p>	\$ 615.29
154. Right Coast Pizza Company	Greeley	14	Restaurant/Bar	Full service restaurant. Revenue is based on the sale of food and drink. Primary business is in-person dining.	We were forced to close completely in March. We then reopened with a staff of 2 to accommodate carry-out orders. Since March we have been operating at about 50% of sales to previous years.	\$ 15,000.00
155. Greeley Early Learning Center	Greeley	14	Education Center	We are a preschool.	<p>We had to close for 4 weeks due to Gov. Polis' order.</p> <p>When we came back we had to limit our class size for another 3 months and a large number of our families did not return for various reasons (lost their job and couldn't afford it, working from home so didn't need it, uncomfortable because of virus).</p> <p>When we were allowed to increase our class sizes we still were not allowed to combine classes in the morning or afternoon which meant we had to pay more staff than normal and we have to have reduced hours because we can't afford to pay overtime.</p> <p>We are still only at 75% of the enrollment we had in January, 2020 and we have had a loss every month since February.</p>	\$ 15,000.00
156. Fort Lupton Chamber of Commerce	Fort Lupton	1	Chamber	We are a member driven entity built to promote and protect the business community in Fort Lupton and South Weld County. We generate revenue through Memberships, two major annual fundraisers and sponsorships of those fundraisers, monthly luncheons and community/networking events.	The greatest hardship is that we are losing our free office space. We have had such a generous donor and Covid-19 was a catalyst for them to shut down their Fort Lupton location. We will now have extra expenses to move our office. The second greatest hardship is the loss sponsorships for events. This is found to be because of business hardships or Covid-19 policies that restrict participation and in some cases, fear. While we have taken as many of our events and services online or done hybrid events, we are just missing the mark without these sponsorships.	\$23,770.76
158. Lunas Tacos and Tequalia	Greeley	20	Restaurant/Bar	We are a 150+ seat, full service taco and tequila restaurant in downtown Greeley, CO. Our revenue is generated by selling tacos and tequila. We average roughly 60% food, and 40% alcohol, while doing just 3% of our sales in takeout pre-COVID.	We were forced to shut our doors and adapt our model to take out only for 3 months until we reopened at limited capacity on June 1st. We laid off 43 employees on March 20th, 2020. Since reopening at an extremely limited capacity, we have been forced to drastically change our business model, spend thousands of dollars on additional signage, PPE, etc, and have lost roughly 40% of our revenue.	\$ 15,000.00
160. New Horizons	Johnstown	4	School	This business is a preschool offering morning and afternoon classes to children ages 3-5.	When the schools shut down in March 2020, our parents all felt that we should close and students stopped attending on March 13, 2020.	\$ 2,420.72
161. Fit For You	Firestone	3	Gym	Anytime Fitness is a 24/7 franchise gym, independently owned business. We make money by offering people in the community memberships to the facility. In addition to the monthly fee, there is also the enrollment fee. We offer personal training, classes, free weights, cardio machines, functional training, and online wellness tools. We charge fees for personal training and classes. We also sell merchandise, workout gear, and energy drinks.	My business was forced to stop operating on March 17, 2020 until June 2020. During that time, I was not able to process gym membership fees, or enroll new members, or sell personal training. I also had to lay off 5 employees. During the mandated closure, I lost almost \$50,000 in revenue.	\$ 10,000.00

162. Syntax Spirits	Greeley	2	Manufacturer	<p>Syntax Distillery is a manufacturer of craft spirits such as whiskey, vodka, and rum. It generates revenue via wholesale spirits sales to distributors and sales through our tasting room. The tasting room sells cocktails, food items, and other merchandise.</p>	<p>Covid hit our business at an extremely bad time. We'd been in business for 8 years at our original location in Greeley, and then purchased the historic Greeley Elevator building in 2018, with plans to renovate the building and then reopen our expanded distillery and tasting room at that location. We spent half of 2018 and most of 2019 renovating the building to the point where we could re-open our tasting room, and had just done so in December of 2019.</p> <p>We did not have the production area of the building renovated yet at that time, and had plans to have production running again by summer 2020. We have been operating our tasting room on inventory that we produced at our original location, and our plan was to use that revenue to help finance our ongoing building renovations until production was up and running again so that we could resume wholesale sales.</p> <p>On March 15th, just as our tasting room was starting to reach its stride again after being closed for over a year, it was shut down by order of the state, throwing our business plan and renovation timeline into chaos. We have been able to open in a limited way since then, but the unfortunate facts are that people are still not going out the way that they once did, and we had to do a great deal of retooling and refocusing in order to adjust to the new circumstances. In addition, the pandemic has impacted our ability to find contractors and other employees willing to do work for us.</p> <p>As a result, our production area renovations are still not completed as of the end of September 2020, and it now looks as though our best hope is that we will be able to get it done by year-end. Because our production has been down due to the move/renovation, we were also not able to take advantage of hand sanitizer production in the early part of the pandemic, as many craft distilleries were, and haven't been able to make up for a lack of cocktail sales with wholesale sales.</p> <p>In summary, the timing almost couldn't have been worse given the phase we were at in this huge project. Please understand that since we were already closed for renovations since mid 2018 and only re-opened one part of our business briefly, our financials won't be representative of anything like a normal business.</p>	\$ 10,000.00
164. Motherlode Co-Packing	Hudson	26	Manufacturer	We are a co packer. We make different sauces and then bottles those sauces for various customers.	We had multiple sick employees that the company paid their wages so that they could stay home. We also had multiple supply interruptions which caused spoilage and loss of inventory.	\$ 543.76
165. Earl-Lee leaning	Eaton	10	Education Center	We are a preschool.	We lost 9 weeks of school income from March - May. We are usually closed in the summer but when school started back this year, we were unable to open one of our programs that operates at the local Elementary School which is resulting in lost revenue. We also had to make some modifications to accommodate new procedures due to COVID-19. We have also had to reduce our hours which meant losing some students.	\$ 2,970.71
168. High Hops Brewery	Windsor	12	Restaurant/Bar	High Hops is a brewery. We brew and sell beer at our onsite tasting room and offsite in restaurants, bars and event centers as well as liquor stores.	We have had to close and limit access to our tasting room which generated a large percentage of revenue. The bars and restaurants that we sell to also closed so we lost all of those sales as well. The multitude of events that we are usually a part of were also cancelled. All onsite as well as a large percentage of offsite sales came to a complete halt. As we have been allowed to re-open our sales have decreased by 70% from last year due to occupancy limitations as well as customer fear. Live music and events were a large draw to our facility and those have been halted due to covid concerns. Sales have decreased across the board to our offsite partners such as restaurants and bars for the same reason.	\$ 15,000.00
169. Parrott's Sports Grill	Firestone	1	Restaurant/Bar	Business is a Sports Bar & Grill style restaurant specializing in slow smoked meats and high quality burgers. Revenue is generated through the general sales of Liquor and Food products.	Our business was forced to close and remained so until July due to capacity limits limiting our revenue stream. We are currently on track to do 15%-20% of our previous years revenue.	\$ 10,000.00
171. Bulldog Deli	Greeley	12	Restaurant/Bar	We are a restaurant. We generate revenue through food and beverage sales.	The business was forced to close for 5 weeks and then to reopen for carry out only and then to open for dine in at only 50% capacity and this has caused a huge drop in sales and profitability making it difficult to pay bills and employees.	\$ 15,000.00
172. Roots Down	Greeley	4	Restaurant/Bar	We are a casual dining restaurant that offers a wide range of house made food and cocktails.	There has been a 30% reduction in our business. Our main concern has been getting people back in the seats. All food product went through a tough time where costs were super inflated and items were scarce. At this point some items have leveled off but, some items like gloves for instance are climbing in price. The employee base has been very minimal as well. We have not been able to be open as much as we want for that fact which has made it hard to recover.	\$ 10,000.00
173. Fitness Avenue	Johnstown	2	Gym	We are a fitness facility with a full line of cardio equipment, strength machines, and free weights. We offer group fitness classes and personal training. We also are a tanning salon and offer massage therapy. We also are a drop off and pick up location for a dry cleaning company.	We were mandated to be closed for 10 weeks during COVID. During this time, our gym members found other ways for fitness. Additionally, the tanning and massage business was mandated closed. During COVID, more people were working from home so there is less of a need for people to use the dry cleaning business. We have been greatly impacted due to COVID and while we are currently open for business, our volume of business is significantly down.	\$ 10,000.00

174. Run Windsor	Windsor	3	Gym	<p>Our business has two components: run coaching, running events and a group fitness studio. Clients pay monthly memberships to attend classes led by my team of instructors. We do not offer an open gym style facility. In 2019 run.Windsor began putting on small races in an effort to help cover the costs of the large overhead of the gym space.</p>	<p>I started run.Windsor in 2017 as a home based business as a run coach, and opened FusionFIT (the gym) in March of 2018. We were ordered closed in March of 2020 and all of our races were cancelled. When I closed, unlike other businesses, I cancelled all of my members' dues as I felt it wasn't right to force them to pay for a gym membership they were unable to use.</p> <p>I created a Virtual membership and with another instructor spent 3 hours each day filming and recording live workouts for our members. As an already struggling start-up gym this has been an incredibly hard year to fight through. My landlord did not require me to pay what I couldn't afford from March through June but is now requesting the \$10,000 of back rent and utilities.</p> <p>Reopening has been a very slow process due to the capacity limits but our members are slowly returning and we feel hopeful we will survive. What I'm struggling with is how to pay back the rent for the three months we weren't allowed to operate as normal. My business also needs additional funding for marketing and advertising in this very competitive market.</p> <p>We are holding a Half Marathon Event in October for 300 participants so my bank account is falsely inflated due to the \$20,000 of revenue from this event but does not yet show the \$15,000+ of expenses that will be paid out for the event next month.</p>	\$ 9,393.34
175. TJ Fitness	Windsor	3	Service Provider	<p>A martial arts academy (Brazilian Jiu-Jitsu) that generates revenue through monthly student memberships, private lessons, seminars, and retail.</p>	<p>COVID has obviously had a very strong negative effect on our business as jiu-jitsu is a martial art that is very hands on (similar to wrestling). Our customers' fear of COVID began to strongly decrease our revenue in February and then we were required to shut down on March 13th. We were legally allowed to re-open in June, however due to not only our customers' health concerns but the variety of required changes in the sport (given the 6 foot distancing regulations, limit on number of people in a building, and mask requirements), we still saw a large decline in revenue.</p> <p>With new regulations we are now able to be open, however, given Polis' mask requirement and strict limit on the number of people on a team and/or in a building, we are having a tough time growing as a business and making up for investments we made prior to the pandemic. This assistance will help us get through these tough times and continue to push forward.</p>	\$ 10,000.00
176. Deluxe Laundry Service	Evans	3	Service Provider	<p>I own a self serve and drop off laundry mat. We do service some corporate accounts as well.</p>	<p>We relied heavily on the Oil and Gas industry for customers. We saw 40% drop in our laundry sales. We lost individual customers and Corporate accounts as well.</p>	\$ 10,000.00
177. Compassionate Connections	Johnstown	27	Service Provider	<p>SENIORS Helping SENIORS provides in-home care. Our providers empower seniors to remain in their homes and continue living independent lives by taking care of day-to-day tasks that become more challenging as we age.</p> <p>Services are paid hourly, and services can go from one hour of care to 24/7.</p>	<p>The home-care industry was hit directly with COVID. Our business provides care to seniors by seniors. COVID was a direct threat to our clients and employees, resulting on a loss of 50% of the business. Clients canceled services because of fear and facilities stopped allowing caregivers into their communities.</p> <p>As of today we are still not able to go into facilities and some clients have called back for services but to a very limited amount of hours.</p>	\$ 20,000.00
178. Fairfield Organics	Longmont	9	Manufacturer	<p>Fairfield Organics sells organic honey and organic chocolate candy to the natural food and conventional grocery sector nationally. The honey is bottled at the facility and the candy is made, packaged and distributed from the facility.</p>	<p>During the spring shipments of our imported honey were slowed due to the virus which caused us to lose 2 months of sales.</p>	\$ 10,000.00
179. Integral Physical Therapy	Firestone	11	Healthcare	<p>We are an outpatient physical therapy business with 3 offices. Two of our offices are located in Weld county. We generate revenue primarily through the delivery of physical therapist services. Typically we bill insurance companies for the services that we deliver and receive payment anywhere from 1-4 months later.</p>	<p>Our business has been steadily growing since we opened our doors in June 2016. We have been consistently hiring more employees and investing most of our revenue into growth. For this reason, our business does not appear to have lost revenue from 2019 to 2020. However, we now have an extra office and therefore more expenses. Because we have been staffing and spending for growth, our fixed costs are much higher than we would like given the nearly 6 months of reduced patient volume. In March our patient visits dropped to 18% of our expected volume and did not return to baseline levels until mid-August. This led us to temporarily furlough much of our staff and we obtained some grant money and PPP assistance which has been tremendously helpful with getting our staff back to work and even expanding our staff to 13 employees (one more than in February).</p>	\$ 2,695.08

180. Cables Grill	Greeley	21	Restaurant/Bar	Cables Pub and Grill is a full service family restaurant. We offer sit down dining, carryout and delivery through Door Dash. We also have a full bar and offer a select Brunch menu on the weekends.	<p>First and foremost a lack of revenue. Increase cost of supplies, for example the cost of boxing up a full meal verses serving it in house is completely different. Cost of certain food supply items doubled if not tripled at one point during the shutdown. Example cost of ground beef went from average \$1.97 up to over \$4 a pound. We have struggled to get our regular food products or have had to pay a premium. Staffing has really been a challenge. Not only did we have to reduce the hours of all our staff but then when we reopened for dine in services we had to hire over 20 new staff members which come with the added cost of training.</p> <p>Due to the current restrictions of only 50 people inside we are operating at 40% capacity inside the restaurant.</p> <p>Reduced operating hours: Our operating hours before COVID were Sunday-Thursday 11am to midnight. and Friday and Saturday 11am to 2am. Due to state mandated restrictions we are currently open Sunday- Thursday 11am to 10pm and Friday and Saturday 11am to 11pm.</p>	\$ 15,000.00
181. Murica	Greeley	27	Restaurant/Bar	Starlite Station is an bar and dance hall located in Greeley. Revenue is generated from cover charge and alcohol and food sales.	Due to COVID, Starlite Station had to shut it's door from March 1, 2020 - June 1, 2020. Once allowed to reopen in June, we could only operate at limited capacity and no alcohol sales past 10:00PM. All of these events have caused a large lose of revenue in 2020.	\$ 13,683.98
182. Malhotra	Firestone	30	Restaurant/Bar	Subway sandwich restaurants. We generate revenue by selling great food.	Starting with the shut down we closed our dining rooms and reduced capacity inside. Additionally we missed out on some of our busiest times with schools being shut down and businesses being closed. We have lost revenue and have dealt with increased costs.	\$ 20,000.00
183. El Rodeo Night Club	Garden City	5	Nightclub	Nightclub/bar all of our revenue is generated from alcohol sales & some revenue from door entrances. We have been closed since mid-March, and currently we are only operating with less then 50% capacity.	We were closed since mid-March, and currently we are only operating with less then 50% capacity. We have had to cut down on staff significantly due to this.	\$ 10,000.00
184. Bear Country Saloon	Greeley	11	Restaurant/Bar	Bears Country Saloon is a bar/tavern/restaurant located on the 9th St. plaza in Downtown Greeley. Prior to Covid-19 we would provide live music and dancing on a weekly basis. We earned our revenue via sales of food and beverages.	It has been a difficult year for everyone, and we are no exception. Similar to other bars and restaurants we were forced to close our doors which was devastating to our business and our staff. We attempted to drive revenue via "to-go" sales but it was extremely challenging to earn enough to-go sales to sustain business. Since being able to reopen we have been navigating the 10pm last call order and now the 11pm last call order which has also been challenging as pre-Covid-19 we derived 70% of our revenue after 10pm.	\$ 15,000.00
185. MJF Manufacturing	Greeley	5	Manufacturer	We design and fabricate pre-packaged irrigation booster pump systems for commercial, residential and city/county municipal landscaping projects. We are also an industrial 508A UL listed control panel manufacturer.	<p>For the period of March 15 through May 5th we received no incoming orders and were forced to layoff half of our staff. It was another 6-7 weeks before our orders were coming in pre-lockdown frequency. We also had one employee who was not able to return to work due to COVID restrictions. We are in the process of hiring back one more person so we are back at full staff. Until mid-August we could not find any interest in filling the position because qualified candidates were making more on employment.</p> <p>We spent a majority of 2019 buying and remodeling a new facility to expand our business. The remodel was all completed with internal labor. We had a few maintenance projects we were trying to complete when COVID hit. It also made it tough to expand the UL control panel portion of our business. You can see our financial took a hit last year as we put a lot of money toward expanding our facility.</p> <p>***Once we receive an order it takes 30 days to recognize the revenue from that sale. Question #37 asks for revenue for March and April. I would like to include that our revenue for May was \$13,093.****</p>	\$ 10,000.00
186. End of the Trail	Hudson	1	Restaurant/Bar	The business is a bar/restaurant mainly serving alcohol beverages and some food.	The business has been closed since March 17,2020 ordered by Governor Polis. This has caused tremendous hardship. My business received no income during this time. From March17,2020 Thru August 15,2020	\$ 10,000.00
187. Search Results	Mead	3	Service Provider	Search Results Inc. is a web development company that specializes in creating websites for primarily corporate clients. We provide programming, troubleshooting and consulting for advanced website development.	Since the COVID-19 pandemic began, our corporate client base has frozen budgets for new projects, severely affecting our bottom line. Our backlog has completely disappeared and we are actively attempting to secure new clients.	\$ 10,000.00
190. Saucedo Oilfield Service	Fort Lupton	47	Oil and Gas	We provide multiple services in the oil and gas industry such as roustabout, trucking, welding, mechanic services, hydrovac services, and rental services to name a few. Some of the services in the oil and gas cross into some of the civil work we do such as trucking, and hydro services.	Covid-19 definitely has made our operations downscale and change our day to day operation procedures. we have had to implement new ways of communication between field operations and office operations. Our office operations have had to be flexible while still complying with customer needs. We have had to shut down our office 1 time for 2 weeks because of 1 positive result. we have had to increase our cleaning schedule to maintain a safe environment.	\$ 20,000.00

192. WeldWerks Brewing Co.	Greeley	34	Manufacturer	We produce, package, and distribute craft beer. Our retail sales consist of draft and packaged beer sold directly to customers. on site at our taproom in Downtown Greeley. We also operate our own wholesale distribution here in Colorado, distributing kegs and cans to retail partners along the Front Range (from CO Springs to Greeley).	In March 2020, we were forced to close our taproom for on-site draft service, which accounted for over \$800,000 in gross revenue in 2019. In July 2020, we were able to resume on-site service, but only after installing two large semi-permanent tents to expand our patio seating, but our indoor taproom seating and service has remained closed since March. In addition to the unplanned expenses associated with the patio and outdoor seating expansion (tents, tables, chairs, cooling, traffic barriers, etc.), we have also been forced to drastically increase our PPE costs (masks, sanitizer, gloves).	\$ 20,000.00
193. Zitterkopf Clinics	Windsor	3	Healthcare	We provide chiropractic and acupuncture services, in person.	We were forced to close business for 7 weeks, and then upon reopening were forced to open at a limited capacity, reduced by approximately 60% for several weeks. This not only resulted in loss of income, but it also significantly reduced my projected sales and growth for the year.	\$ 10,000.00
194. Evolution Computers	Greeley	2	Service Provider	Evolution Computers provides IT support and computer repair for Weld County business and residents.	Our business is mostly onsite service, over the last few months are business has dropped significantly and we have had to adapt to remote support, which has cost more money and sales have been down.	\$ 10,000.00
195. Michael Zuhlke	Greeley	1	Healthcare	I am a Licensed Massage Therapist. I provide massage service to my clients. I generate revenue by providing massages.	I was unable to see any patients after the end of March 2020 and until DORA and State allowed me to start seeing clients again I was unable to work.	\$ 10,000.00
196. Fit for You Milliken	Greeley	1	Gym	Anytime Fitness in Milliken is a 24/7 franchise gym, independently owned business. We make money by offering people in the community memberships to the facility. In addition to the monthly fee, there is also the enrollment fee. We offer personal training, classes, free weights, cardio machines, functional training, and online wellness tools. We also charge fees for personal training and classes. We sell merchandise, workout gear, and energy drinks.	My business was forced to stop operating on March 17, 2020 until June 2020. During that time, I was not able to process gym membership fees, or enroll new members, or sell personal training. During the mandated closure, I lost almost \$80,000 in revenue, while also incurring additional expenses due to COVID.	\$ 10,000.00
197. Lily Farm Fresh	Keenesburg	2	Manufacturer	We are an event center and we sell and manufacture organic skin care.	The event could not hold events for all of March, all April, and most of May 2020. In addition, we sell skin care to Whole Foods and Natural Grocers their skin care sales were down over 20%.	\$ 10,000.00
198. Journey Multimedia	Greeley	2	Service Provider	Technology based. Primarily website development and video production and live streaming.	At the beginning of Covid 19 pandemic, our primary clientele stopped all work with our company and they have not resumed. New client projects that were scheduled for this year have been cancelled indefinitely, including work with the Denver Children's Museum, a major client in 2019.	\$ 10,000.00
199. Windsor Downtown Development Auth	Windsor	2	Non-profit	The DDA has an IGA with the Town of Windsor and captures a percentage of the Town's sales and property taxes. It also has a TIF District where revenue is captured off of the increase in property tax valuation that is generated from redevelopment in the district.	Our downtown consists of mainly retail and restaurant establishments, many of which had to close during the first few months of the pandemic. Upon reopening, these businesses have had a difficult time recouping lost revenue and are still operating under a limited capacity due to public health orders and physical distancing rules.	\$ 24,037.96
200. Carolyn Heame	Greeley	1	Retail	We are a family owned business that caters to people who are on their feet for long periods of time such as teachers, healthcare workers, social workers, retail workers. We also specialize in helping people overcome debilitating foot issues with carefully selected footwear and orthotics. In addition, we offer comfort clothing for professionals and now, comfort clothing suitable for Zoom meetings!	As a small business without the designated "essential" title, we were shut down for 2 1/2 months with absolutely no income. We are making a tortuous comeback. Unfortunately, the City of Greeley shut down the street in front of our shop for 2 1/2 months starting in July to help the bars which made it impossible for our customers with foot problems to access our store and business plummeted from our slow recovery sales of June. We are struggling.	\$ 10,000.00
201. Titan Solutions	Greeley	65	Service Provider	Equipment rental, other oil and gas services	Our business is driven by the oil and gas industry. Due to decreased demand for oil associated with COVID-19, demand for our services has also declined. We are reliant on oil and gas companies to begin new work, but social distancing and other precautions will limit our ability to obtain work.	\$ 25,000.00
203. Sugar Mill Antiques	Mead	2	Retail	We are a retail store with a brick and mortar location in Weld County. We sell antiques, home decor, gifts, locally made items etc.	Our business was forced to close in March and could not re-open until May 2020. This greatly impacted us as we were not allowed to be open and have customers shopping. Thus resulting in our not being able to sell our goods during this time. This caused a major financial hardship for our business.	\$ 5,600.00
205. Ruse Escape Room	Greeley	1	Entertainment	This business is an entertainment 'escape room' or live interactive puzzle challenge requiring groups of people to collaborate together. Groups of 2-10 people would participate in this activity for a one hour time period per group.	The business had to shut down from March 17-June 30, 2020. We have had to limit our offerings as well as provided added safety measures such as added sanitation practices, offering masks and sanitizer and gloves is necessary to our guests.	\$ 7,615.87
206. Image Auto Detail Specialist	Evans	1	Auto Repair/Maintenance	Provide automotive cleaning, sanitizing and surface maintenance inside and out.	Had to extremely limit business operations at the beginning of the pandemic and have had to purchase additional PPE and sanitation supplies.	\$ 6,373.02
207. GinnyRock	Greeley	4	Gym	We provide membership based group fitness kickboxing classes and sell related merchandise such as apparel and small food items like protein drinks and bars.	We were forced to close in March 2020 due to COVID and remained closed until June. We switched to offering online training to our members but lost approximately 60% of our clientele. In March we had a membership base of approximately 250. After reopening we were able to recruit some of our former members back and obtain new members but continue to operate at with approximately 140 members.	\$ 10,000.00
208. Manko Foods	Fort Lupton	18	Restaurant/Bar	Subway is an American privately held restaurant franchise that primarily sells submarine sandwiches and salads, pizza, soup and snacks along with drinks. Manko Foods, Inc operates 2 Subway in Weld County: 1. Subway 54126 Located 1200 Dexter St W2, Fort Lupton, Co 80621 2. Subway 42389 Located 101 Willow Dr, Lochbuie, Co 80603 Take out, partial dining at this time, and delivery.	Year over year compared to 2019 From March 1st to April 30th our revenue has declined over 35% from \$185,459 down to \$120,718 for both Subways we have in Weld County. Further, the revenue has declined over \$135,433 from January 1st to August 31st. The dining is still not fully open. We are training several employees as turn over due to covid -19 has increased.	\$ 15,000.00

209. Avila's Barber Shop	Greeley	3	Hair/Nails	Our business is a Barber Shop, where we provide haircuts, shaves, women's cuts, facials and more. Our barber shop is located inside the mall, where we are constantly busy with walk in and appointments. Our service hours are Monday - Saturday 10:00am - 9:00pm Sundays 12:00pm-6:00pm and have about 1,000 customers come in per week.	Due to the COVID-19 our customer base has decreased a 75%. The hardships of being a barber shop inside a mall are greater than a barbershop outside. We were forced to close down in March due to the pandemic and weren't allowed to open until May. In the month we were closed we were paying rent, electricity, insurance, ect. This caused us to use our savings. We are still not open full hours, and can't offer all the services we did. All our customers must be by appointments and we can't have all the barbers on the floor at the same time. Due to this we had a few barbers that had to look for work elsewhere, we went from having 8 barbers to 3 barbers. The pandemic has affected our business in a major way.	\$ 10,000.00
210. Bella Vie Spa	Windsor	3	Spa	Bella Vie Med Spa is a full service med spa and wellness clinic. We offer the following treatments, botox, filler injectables, b-12 shots, hair removal, hair and nail care, laser treatments, massage, facials and small amount of retail but are in the process of applying for a sales tax ID and starting an online store to retail skin care products.	March 19, 2020 Governor Polis mandatorily shut down the health and beauty industry due to Covid 19. Myself, my booth renters, front desk staff and commission staff were with out work. June 19, 2020 Governor Polis allowed limited services and treatments to resume. At this time limited clientele and limited work staff. During these 3 months of mandatory shut down and zero income I still had to pay rent, utilities, insurance, equipment lease and I had to put all of my vendor payments on hold. PPE was required to be purchased as we were able to clowly reopen.	\$ 10,000.00
211. Panda Noodles House	Greeley	4	Restaurant/Bar	It is a full service Chinese restaurant. We provide dine in, carry out, and delivery by third party.	Due to COVID-19, we had to closed for two months, April and May, according Public Health Order. We had no income but had to paid rent and all utilities bills.	\$ 10,000.00
212. Swan Meadow Cottages	Greeley	1	Hotel (49 or fewer rooms)	Revenue generated at \$164 each night. Loss of revenue for 115 days - March, April, May, and June. Beacause of the virus restrictions, we turned down rentals in Greeley for that period. \$164 for 115 days equals \$18,860 in loss of revenue.	Because of the state restrictions, the cottage was shut down totally for 4 months with 0 income and turned down 115 days worth of revenue.	\$ 10,000.00
214. Elton H. Johnson	Greeley	1	Farm	Family owner farm raising angus beef for sale - sale of organic eggs and swans.	Price of cows dropped approximately \$500 for each cow which delayed selling cows to pay for this winter hay.	\$ 4,416.00
215. A Cake Come True	Firestone	3	Bakery	We are a bakery specializing in cake, mostly wedding cakes (which has been impacted by COVID-19) as well as a store front that sells baked good from our display case as well as take orders for backed good and events.	Due to COVID-19, we initially had to shut down for a period that hurt our business since our primary source of income was from weddings, which was stopped, as well as in store purchases, which also was stopped. We shut down for a couple of weeks as mandated by Colorado. While in shutdown we continued to pay our employee and our business bills, which took a big financial impact on income and placed strain as we tried to figure out how to continue to do business.	\$ 10,000.00
